# Keys of Enoch, Exopolitics, Giza Hall of Records

Drs. Hurtak, Michael Salla

## Keys of Enoch, Exopolitics, Giza Hall of Records – Two Conversations

Drs. J.J. Hurtak, Desiree Hurtak, Micheal Salla

## Mars, Keys of Enoch, Space Arks, Portals, Pyramids & Return of ET Seeders

https://rumble.com/v159gmy

Dr. J.J. Hurtak burst onto the metaphysical and UFO scenes with his 1973 book, *The Keys of Enoch*, which contained groundbreaking information about ancient civilizations on Earth and Mars, the origins of UFOs, higher dimensional entities, Merkaba travel, pyramids, and extraterrestrial life and technology. The accuracy of his remote viewing, and extent of his extraterrestrial and higher dimensional encounters, led to him being recognized as a leading authority on esoteric topics being studied by alternative researchers, general public and government officials.

He has spent almost five decades traveling the world with his wife, Dr. Desiree Hurtak, to research ancient artifacts, pyramids and technologies hidden at remote locations such as Giza Egypt, the Yucatan Peninsula, Israel, Chaco Canyon New Mexico, and Bucegi Romania. In 1997, they played an instrumental role
in discovering the Tomb of Osiris at Giza, Egypt.
In this Exopolitics Today interview with Dr. Michael Salla, they discuss the implications of their nearly five decades of research into a range of exoarcheology and exopolitics topics, and the prospects of highly evolved extraterrestrial "Seeder" races soon showing up and ushering in a new era for humanity. Dr. J.J. and Desiree Hurtak are the founders of the Academy for Future Science which explores new

scientific ideas and contains some of their publicly available research: https://futurescience.org/

Their most recent co-authored book is *Giza's Industrial Complex* (2019)

**DR. SALLA:** Now more recently there's a gentleman Ben Davidson who's the founder of I think it's called spaceweathernews.com and he's done a lot of work on micronovas and he's looked at peer-reviewed papers and says that these micronovas have occurred regularly. I think he's come up with a figure of every 12,000-13,000 years and believes that a micronova is imminent and I think he thinks that something is going to happen around the next solar minimum which is going to be around the 2030s. So is that something you've come across in your research anything you can comment about?
**J J:** Well I was involved with the Mayan system, the mathematics of which have not been understood and in fact we gave a lecture recently with a person from Chile who was a recognized specialist in the Mayan mathematical system which is one of the most superb systems ever left to the human race by the cosmic others in my logic and that suggests that between 2026 and the early 2030s we're going to see gross geophysical changes.

**ANNOUNCER:** You're listening to Exopolitics Today with Dr. Michael Salla your source for the uncensored truth regarding the human extraterrestrial global and political agenda click the like button and subscribe to this channel and now here's Dr. Michael Salla.
**DR. SALLA:** It's my great pleasure to introduce Dr. J J Hurtak and Dr. Desiree Hurtak who are a team who do really amazing pioneering work in a number of fields and because their experience goes back to the early 1970s and because they've done so much I thought it'd be great to invite them to Exopolitics Today to get them to introduce themselves and to understand exactly how it was that they got involved in this work so thank you for being here Dr. JJ and Desiree Hurtak.
**J J:** Thank you very much Michael it's an honor for us to be on your program as you know Desiree and I have extensive academic

backgrounds with the University of Minnesota right a doctorate degree in intellectual history as well as oriental sciences as well as a doctorate from the University of California in social sciences. Desiree's work first was at the University of Syracuse and in New York she was a professor and so we bring together a wide panorama of research in many disciplines.

**Desiree:** Right and so we're happy to be here today and really as you said we go back to the 70s to the time with Andrija Puharich and Uri Geller when they were starting to be popular and Dr. Hurtak had intertwined he didn't work directly with SRI which is remote viewing people, but he did work with Andrija Puharich who was doing a lot of the remote viewing as well.

**J J:** Actually in parallel phase with SRI I did work with SRI in a later context remote sensing and remote viewing experiments.

**Desiree:** And of course he co-wrote a book with Russell Targ called *End of Suffering* because Russell eventually found out hey you know if you really can see everywhere around the world I mean this is a whole new reality taking place and we often equated also with really the way extraterrestrials and other levels of intelligence use their consciousness and so we love the idea of remote viewing because Ingo Swan showed [*Penetration*] you can remote view to Jupiter.

**J J:** And he did the rings around Jupiter before the NASA got there. In fact, Ingo allowed us to use one of the pictures of his marvelous pictures of the human mind as a cosmic egg opening up to see it was where the power of the whirling galaxy embedded within our consciousness for one of our books that we co-wrote with Russell Targ one of the co-founders of the whole discipline of what is called remote viewing. So we have had the opportunity to work behind the scenes with some of our colleagues in what do we call the world of black science that is to say in super sensitive subjects as well as in the practical world of those who are doing field research and Desiree and I have had the opportunity to work in more than 30 countries and really with some of the best of the scientists involved with future science or future studies science guided by consciousness is what we call future science.

**DR. SALLA:** Yes, I saw some of your early interviews and you discussed how you began doing this remote viewing and I guess the

SRI or Stanford Research Institute kind of like inspired that and you saw through remote viewing or I think you call it remote sensing you saw pyramids on Mars and because of what you saw you were then handed images from the Mariner nine showing these pyramids on Mars so can you explain what happened there?

**Desiree:** All right let me start with the remote viewing being the power of the mind to see in other spaces and I also will throw out other time realities, but remote sensing is another technology that Dr. Jack and I have worked with especially in our archaeological research and that is we use actually technology to see what's below the ground or in some cases what's in from space into the ground.

**J J:** Remote sensing is with technology and more without technology and of course I was able to tell my NASA colleagues as a private consultant that there would be the finding of pyramidal formations and what is later called the Elysium quadrangle and the surface of Mars and because of the accuracy of my predictions I was able to get NASA management to give me a few pictures which appear in my book *The Keys of Enoch*. I was the first to actually publish these pictures from the Mariner nine probe in 1972.

**Desiree:** Right, so which says that we already knew or felt from information and also from Dr. Hurtak's unique direct experience he had in 1973 that there had been and probably still in some capacity is intelligent life on Mars.

**J J:** Right and this put me in touch with many outstanding individuals behind the scenes so we're aware that human civilization from the very get-go was interested in using pyramids as quantum monitors or time measuring devices in relationship to the movement of the Sun the moon in distant or sister planets such as Mars and Venus so we had the opportunities over some 49 years to lay out a world roadmap based upon my original research that show us indeed there are these we call time doors or time vaults where the human race historically has been in touch with what we will call extra solar intelligence or intelligence beyond our solar system.

**Desiree:** All right Michael I know this goes along with a lot of your own research that you know pyramids around the world we've been to the ones in Sien? and China and of course the ones in Mexico and certain ones in South America and other locations even the Gympie pyramid

in Australia we actually have a little youtube on that these are not just happenstance because cultures individually all over the world decided to do something. There's something about the geometry the sound frequencies that we've recorded inside these pyramids and just their alignments to the stars and in fact just to go a little bit further there was a young kid in Canada in the French Canada named something like Godory who did alignments between the stars and the temples of the Yucatan and he totally aligned almost all the sacred temples and in fact he even found one that was missing connected with Orion, so you know these are not just happenstance situations there's something behind us some intelligence behind it I think you agree.
**J J:** The map he came out with matches the one that we published in 1973 maybe you cannot see this with this call the Guatemala triangle between Chitsan Itza Colum Huiu which is the ancient area of Guatemala City. In today's the pictures it shows an area now that national geographic scientists and scholars have investigated they had a massive population upwards of 12 to 15 million people according to recent demographic studies.
**Desiree:** Right, but at the time of Christ or right before the time of Christ before they were wiped out by climate change actually from what most archaeological people believe.
**J J:** So *The Keys of Enoch* is our real roadmap and has brought us…
**DR. SALLA:** Well before we get into *The Keys of Enoch* I just wanted to kind of follow up on this difference or this distinction between remote viewing and remote sensing you say remote sensing uses technology and I know Dr. Andrija Puharich he was actually using a Faraday cage to improve the performance of psychics and that came to the attention of the army back in 1952 and they actually forcibly recruited him into the army to do this work in using technology to improve psychic abilities and you were obviously working with Andrija Puharich so was that part of what you were doing remote sensing?
**Desiree:** Well actually okay let me go back with Andrija for a minute and basically he was I think he was already because this is the 50s right he was somewhat connected with the army and he was working as a medical doctor. He was a medical doctor MD and some guys started getting like communication. It was like really strange and so Andrija researched it.

He was the guy to research what this was all about and it turned out that the guy had had some sort of metal placed in his tooth by a dentist that was receiving local radio signals. That's exactly what started Andrija in this entire thing, but ultimately in his research he realized that other people were getting similar signals not by the local radio.
So that's where the Faraday cage got employed by Andrija because he realized if you could cut out these local radio type of signals we're talking about 50s, 60s and 70s then you could like really get clear on the information coming through some of the more sensitive individuals.
So that's not quite actually remote sensing. Remote sensing is really something that NASA and other government agencies have done it to deploy and look for and some even corporations so look for oil and gas underneath the sands and even underneath certain types of water scenarios, but mostly they can penetrate down.
So like, for example, in Egypt we used remote sensing technology, ground penetrating radar, to be able to see certain types of cavities underneath the paws of the Sphinx.
Now this is like you can't really say it doesn't exist when you can hit the ground and see this like kind of cavity coming up underneath the paws going down four or five meters so you know this is what's amazing and dry sand is even better than wet sand then wet you have to use sonar and there's different things you can do it from satellites and you can do it from some from…
**J J:** This is summarized in our book called *Mind Dynamics in Space and Time* (2016) with a solid bed from mathematician/physicist Elizabeth Rauschier from SRI where we collaborated in some of the work in looking both with remote viewing. I and Elizabeth and Desiree participated in more recent studies with matching the historic record with remote sensing with the radar and what we call GPR ground penetrating radar profiles and they matched suggesting that we're in a whole new chapter of human engineering.
We are at a point of time where we can save literally generations or decades of research by these very valuable tools. So to summarize Andrija came to me because he knew I had psychic and paraphysical experiences and asked me to join his work and he was working with

top end people connected with naval intelligence, army intelligence and the other information gathering agencies.
**Desiree:** Right he was one of the key people who joined up with astronaut Edgar Mitchell and Uri Geller to the SRI program.
**J J:** But that's another story. I want to say this specifically in the historic millions in time that we had a joyful time with Andrija for more than 25 years looking at areas of the world not only were we were able to assess archaeological targets, but in some instances as the book *Mind Dynamics* tells us to actually intercept certain military operations.
**Desiree:** Right because if you can kind of sense and tune into other people's minds which remote viewing tells us we can, then why can't you work somewhat to at least instill or put intentions to neutralize some of the aggressive minds and that was what we did and we think and not only us, but people around the world, of course, could do this and not feel overextended by the energies coming to us from all the violence on this planet. Let's put energy out into the consciousness field to neutralize some of that and we found in the 70s. We think we helped collectively. It was a whole network of us around the globe to neutralize any violence that was going to take place in the Middle East.
**J J:** This included three cabinet ministers of the late president Kennedy who out of office at that time were interested in physics, parapsychology and the possibilities that the human mind could connect with other information sources.
**Desiree:** So one guy even actually saw in his mind how he could neutralize because he understood some of this technologically like some sort of missiles so he actually saw a missile being neutralized through the power of his mind and I know Uri Geller used to sit on an airplane behind and he's publicly made this statement behind Russians and he would like go erase, erase, erase and he like focus on the brief case and actually erase data he fought you know he was thinking he did of the briefcase of some Russians mind so it's kind of an interesting thing that we can do with the power of the mind.
**DR. SALLA:** One of the things that I found very fascinating in your association with Dr. Puharich was his work in trying to bring out the information from this group calling itself the nine or the some call it the

council nine and you were involved I mean you've actually been described as the right hand man of Dr. Puharich. So how did you get to be so important in terms of his work doing this pioneering researching getting information about these advanced extraterrestrials The Nine who are kind of like overseeing this cosmic experiment on Earth?

**J J:** Well Andrija was able to filter information very carefully from those we were associated with. Again a lot of this was *sub rosa* or private research that he was doing and he felt I had a great degree of accuracy in some of my predictions both in areas of social science archaeology as well as future science targets on our sister planet Mars and beyond. Needless to say he was at that time in the late 60s early 70s interested in bringing together what we will call the gifted children or young people between the ages I would say of 18 to 28 or even lower. Actually went down to later of dropping down to even much earlier age that would be able to be sensitive to issues around the corner it's suggesting that there was a whole new generation of young adults particularly American young people who were interested in pushing the envelope of science so we would call the scientific paradigm more into the area of consciousness.

**Desiree:** Right, we call them the starseed kids today, but this is going back to the 70s when he realized that a lot of these kids were being taken to other planetary systems and taught information. He had his own contact, but he also will say positively tapped into the thoughts and consciousness of some of these younger kids to pick up what they were getting about the planet and it wasn't always positive. It was a little bit dire in terms of what they saw the planet in the future to be like.

**J J:** So to answer your question directly I had several paraphysical contact experiences before I met him in 72. What happened is we sat down at the table and he wanted to know who I was in contact with. And so I wrote a code system of letters in ancient Hebrew and he wrote letters from his side of the table and we put the two script together and they matched. So he knew and I knew we were working with the same source, what we would call the high command of what we would call in theological literature the super angelic, the archangelic in the Sanskrit tradition, the maha avatar is the greater

minds that comprise what we would call in political science counsels of communication with the human race.
**Desiree:** Right so he and of course it was around the time he was also bringing Uri Geller to the fore to the populace notion, but anyway so he and Uri would see extraterrestrial vehicles, but in addition to that they felt that there was a consciousness behind that it was maybe even working on another level even a greater level a more all-encompassing level behind these extraterrestrials and he did call them The Nine. These were supposedly nine principles that made up the universe and really was just part of you know the consciousness trying to help humanity for the next we'll say 50 to 60 years because they fell to from their information and some of this came through Phyllis Schlemmer and others…
**J J:** Who work with the FBI and also intelligence services.
**Desiree: …**that there were going to be major changes and we needed to grow up. We needed to work more collectively. We needed to be more peaceful everything that we've been talking about now they actually did bring out in the 70s
**J J:** And that period of time was should we say was very critical because the policies of Henry Kissinger had failed with diplomacy of peace in the middle east and therefore those in high command positions in the American government we're looking at the possibility however remote that sensitive to those with extraordinary mental powers could should we say come together with a type of road map that would advance the American position of peace and harmony in the middle east.
**Desiree:** And of course you know a lot of the SRI material went eventually to the military and so what do they do with that. Well actually one of our presidents came out with the fact there was one-time President Carter came out with a soviet jet was trying to escape or leave and defect to the U.S and I think at some point they either shot of doubt or it came down and it came down in the area of west Africa.
We kind of knew the government kind of knew where that was, but we wanted to get the guy and at least the black box and information that he had so they called the psychics the government called the psychics and said “Where's this airplane we got to get there before the

Russians make it." And the psychics came forward and said well there's a river here and there's trees here and that's where the plane is. Well we did get there before the Russians got there.
**J J:** So I mean that's just one example and later Carter at a news conference let the cat out of the bag and said during his administration that was the most amazing one the ex-ordinary back was the hunt for the Russian plane.
**Desiree:** But in addition to that you can imagine if there is like you know military things going on right now are we using psychics to say where is this and where is that and can we you know maybe send a drone in or you know look with our satellites or whatever so don't think these things aren't being used at all and you know in a sense if you're if you're on the side that thinks it's a good thing you know then that's what you want to do because why risk lives and things like that?
**J J:** Life is precious and the opportunity to bring forth the new tools of science particularly consciousness development is such an exciting part of our work with young people throughout the world.
**Desiree:** And I just want to add the important thing is and we've been saying this a lot in our own teachings is contact with extraterrestrials they function the same way we've been talking about they see everything or they're connected in quantumly entangled with the brain waves especially of people that they've been in contact with or who have seen extraterrestrial spaceships you don't even have to talk to the guy you can just see a spaceship and you're quantumly entangled and when you are at that point they are also totally tuned in to everything that they're saying.
In fact, I wrote about this in a chapter we did in a recent book by Alan Steinfeld called *Making Contact* where someone was sitting in a kitchen she was told what not to say by extraterrestrials and this guy was pushing her pushing her pushing her the lawyer use a lawyer use a litigation attorney is really incredible to say more and all of a sudden the shelf literally blew up in the kitchen you know and she says I can't say any more they're like they're listening.
I mean it might be scary to you, but that's how some of these other side realities work they have a consciousness connection. The consciousness field is open. It's very hard to block it.
**DR. SALLA:** Well one of the things that early on in the 1970s that I

guess led to you being well known to a wider community was the book you wrote *The Keys of Enoch* and when you talk about using a Merkaba vehicle or being taken by a Merkaba vehicle to these realms where you had these incredible experiences and then you wrote what you recalled of all of that. So why don't you tell us about *The Keys of Enoch* exactly how that happened and why it's still relevant today.

**J J:** I'm holding up *The Keys of Enoch* with the divine name in the mystical traditions of the middle east the Husham the divine name is what we call here the YHWH the name of the source of all sources and then we have the dove a symbol of higher gifts of communication that's projecting seven levels of information to human hands that are

catching the information that represents the seven seals of the seven chakras the makeup of the human genetic code.
**Desiree:** Right, but this is actually the reason for the divine name, for example, is the fact that you know our genetic code as Dr. Jack was just saying, actually has four major nucleo bases by the way all of which have now been found in outer space and basically it's by rearranging that into three that we get our DNA so what he was shown in and it was not an extraterrestrial experience.
I always have to qualify that. It was not a channeled experience as you said Michael it was a Merkaba experience which means he actually left this planet, but was taken into other dimensional realms in higher spaces beyond the extraterrestrial and he was shown scenarios past present and future and some of this of course has come out in the book, but the DNA was one aspect of that of how our DNA code is not a happenstance code.
It didn't just happen and we don't even think it really came…
I mean there were Nephilim I know you're very much into the Book of Enoch and I we agree with that and that was very clear that we'll say other species that were superior to us came and had relations with the daughters of man and created these giants which started destroying the planet so that literally the angels and other forces had to cause the flood.
**J J:** What I want to show, word for word, the audience, help me, one of the schematics showing how the human DNA is working with the permutations of the divine name Yod Wod the name of the eternal one [on page 191].
**Desiree:** We consider this a DNA code again this was written in 73 and so basically the codes are there the codes and that's why some people see these beings and some of them don't look like us some of our little Grays and Insectoids and all the different types of Reptilians, but the really ones that oftentimes people see on other realities actually look very much like us because our code system really has a connection to their code system. So it's really just a mathematical code that then comes into concretization in three-dimensional DNA.
**J J:** Again each of the assertions we're making is supported by film documents so here we see a picture of the ATP done as the Adenosine triphosphate and we see the various variations that come

out of the human genetic code which is also responsible for other similar species forms that are like us in terms of the cosmic origin namely that behind the evolutionary process there is a higher evolutionary process.
**Desiree:** If you take the fact that it doesn't take much for us to be for our DNA to be rearranged and look like a pig. It doesn't take much it's all literally it's just substances that are arranged in a certain language code according to Peter Gabriel who was an amazing instructor and friend of ours you know once you change those language codes you get into other types of species.
**J J:** So not to overwhelm the audience each one of our chapters here goes with a particular project, a particular film on a shall we say an ongoing project with younger engineers, biologists in evolutionary biology who recognize that the human genome is being shall we say decoded and we're being made aware now that we're not that unique there are other life forms in the universe.
**Desiree:** Right and Dr. Jack also in the *Keys* goes into Egypt because we worked we've worked since then since this book came out a lot in Egypt and he was one of the first to say that the star shafts from the king's chamber relate to Orion, the bulb of Orion and so that was one of the statements he made in the *Keys* way before Bava who we personally love. He's a great guy who came 20 years later.
**J J:** So it does we are saying that there are chapters of information beneath of the Sphinx and beneath the pyramids of Giza that hold the secret to the human evolutionary project we call the Adamic story.
**DR. SALLA:** So why don't you tell us more about this Adamic story about the creation of humanity and the role of extraterrestrials in that because this is a very controversial issue now at an age where the existence of extraterrestrial life is being considered by many more people.
And those who have a religious persuasion they think of this so mighty powerful god-daughter of the entire multiverse had a direct of humanity, but you know we're told from the contactees and many sources that it was actually extraterrestrials that created us. So can you elaborate on who the exactly created humanity?
**J J:** Very simply *The Keys of Enoch* are a further explanation of the Adam and Eve story in the book of Genesis we read very carefully in

the Hebrew the book of Genesis the seventh day didn't come to an end and so we are in a should we say unique area of cooperation if we wish with cosmic intelligence.
And one form of that cosmic intelligence is not the extraterrestrial, but what we call the ultra-terrestrial the forms of intelligence that have evolved beyond the physical form, but still operate through a consciousness communication system with the human race.
Because of the situation now occurring on mother Earth with should we say the climate change and the possibility of biological collapse on the on mother Earth and this is something that's been echoed by specialists at the United Nations we are on the brink of destruction the whole society and the cosmic others we call the ultra-terrestrials are giving us an opportunity to recalculate our blueprint of evolution usually through mental telepathic communication.
**Desiree:** Right because they're kind of like our cosmic cousins in the sense of this is what dr. jack was showing and we do introduce a whole cosmology which I think is unique, but also biblically based and even ancient eastern structurally based you know basically we feel we were kind of energy bodies and the Bible says we actually fell into this reality and had to take on bodies of skin.
Well who we before that? Historically or it's also known as the adam khan mong which was the primordial or original force they have the image of man woman and I always say and I'm sure you've said this many times too Michael that you know it's interesting to go to another planet and see you know Reptilians and Insectoids, praying mantis, but what's really unique is to go to another planet and find us.
That means that we did not evolve here and we would even take it one step further that we actually came into this sun universe or local universe, really from a higher blueprint is what we feel and that's why some of the extraterrestrials really, really want our DNA.
An old friend of mine and you might have met him his name was Posty, Virgil Armstrong, wrote in a book, they need us, we don't need them. And basically he was saying that these extraterrestrials either because they've misused their DNA by too much cloning or because they realize that our DNA is kind of a little bit having soul connection if I can say that in a positive way that they want some of that.
And so we feel we did come from a higher soul vibratory frequency

and we're here to kind of help not only this planet, but really to help the universe and there's many extraterrestrials out there that are like us maybe some have elongated skulls some have a little bit difference from what we do, but they're actually also here trying to help awaken us because we forgot who we are.

**J J:** And because we're cosmic cousins so there's two interesting scenarios being played out now in the world media the downward spiral of climate change and the end of everything we know it of the end of history.

On the other hand, there was an upper spiral taking place amongst younger scientists, scholars and students who see beyond the veil of the old historic mysteries that our Bible is really a scientific textbook within or should would say biblical prose that indicates that when we find the divine spark within us and reach out to the positive forces of the universe they entering can help us engineer a better future.

And this is the exciting time that we live in to realize that there are time doors that are being opened sacred areas of the world that the indigenous revere that are important areas of future contact and we've been involved with indigenous leaders all throughout the world we're on native chiefs of the Shavanti peoples of southern Russia we've been in their villages where they've seen light probes and they know that the star nations are coming closer to human civilization in the essence are working now within human civilization by those who elevate their consciousness to think for positive solutions.

**Desiree:** And I love to give more into the time doors and what's underneath the ground so to speak in certain sacred areas, but I do want to say a little bit more about *The Keys of Enoch* and Dr. Jack in 1973 when he had that experience was told that actually to help humanity that these higher levels of intelligence were going to give us 64 areas of science to help us catch up to those who are we'll say flying in spaceships to see that we're more on par than we think we are.

So not only with our own brainwaves being able to communicate and share, but also the fact that our technology needed to be advanced, but problem with advancing technology is that we have to have we'll say the heart and the consciousness to go with that, but if you look at it you know DNA understanding look at how many things can be

cloned now or made you know with Crisper also other situations historical that we now know.
I mean there's even Wikipedia and you know how conservative they are, are going back 60,000 years practically in northern Sumer, yes. so you know everything is literally not and the stars themselves to understand we just saw what the center of our own milky way black hole through a coordination of networks that they think about eight different astronomical networks on the planet. So I mean you know we're really advancing to understand who we are not to mention about the James Webb telescope that tells us you know we're just like this little stack somewhere in this whole energy field of gravity and magnetic fields exist everywhere.
**J J:** But we are somebody, somebody in the vastness of the billions and billions and billions of galaxies we are something of importance our friend Linda Moulton Howe suggests that the importance is the human soul which is the interesting subject that we have been looking at.
**DR. SALLA:** Well one of the things one of the things that I've been particularly fascinated with is the idea of a kind of temporal wall between different extraterrestrial factions and that one negative group of factions began working with Nazi Germany during the second world war even prior to the second world war and actually helped them establish some breakaway civilization or space program in Antarctica so you know what do you know about that?
**J J:** Well, as you know I was involved with several documentaries way back I think early on in the late 80s early 90s that looked at all sides of the equation. Much of this has been discounted by Nick Pope thinking that this is an exaggerated romanticism that's being projected at the end of World War II my research in German archives and talking to members of the group directly while I was doing some consulting work for JPL is that there were trade-offs at the end of the war with the experimental craft and these experimental crafts being used by the allies are the subject of interest and would suggest why some of this has been beyond classification or beyond top secret.
So the answer to your question is we believe that there are positive sources of intelligence in the universe thousands of years before World War II they were interacting with the human race and my

research with shamans in Africa and South America as well as government people connected with Brazil and South Africa suggest that there were other civilizations that were on Mother Earth doing geological surveys long before European history was written.
**Desiree:** And of course Maria Orsic supposedly was the channel or at least one of them for the Nazi party or at least for Hitler at that time and some of the scientists to devise these spacecraft.
It's not unusual. There's a lot of information that can be gotten both from we'll say without psychics and with psychics to inspire and to move forward and that's part of our work to say the consciousness field is available to anyone and anything. You just need to realize you can go outside of yourself channels in that sense which we don't normally support, but they do provide oftentimes that information. So we do believe that the Nazis after the war did go down to the Antarctic. However, we feel that the Antarctic bases that were there were much older and this comes from an associate of ours named Elizabeth Klarer from south Africa who worked with British intelligence during World War II, but who had been in touch with intelligence face to face, not through channeling, but face to face that told her about bases in the Antarctic we'll say tens of thousands of years ago at least before the last ice age.
**J J:** So when I met her in the early 80s she gave me the name of the planet that her associate was from that she was taken to. If you believe her story that planet was mitone and I told her in *The Keys of Enoch* my book written much earlier in 73 there was a reference to mitone and so we became friends because there was a linguistic tie-in that was very important so she compiled and us information which I'm not going to go into detail with, but simplifying she said that a group of intelligent beings that look like the humans were on this planet momentarily thousands of years before and because of this the solar changes taking place they had to leave the planet.
**Desiree:** Right if you read her book which is called *Beyond the Light Barrier* her civilization she was in touch with was on Venus, Earth and mars this is what she said and her experience took place in the 50s she only wrote about in the 80s because of the ability to get things out, but basically that that because of solar flares and changes with the sun because she says that this is an unstable star and Dr. Jack also

mentions the sun is a variable star which means it really can't rely on it for stability. They had a move off and they said they left some civilizations here on the Earth and a few on Mars.
Mars did not survive as well and they went to the closest star because that's as far as they could go they were you know still fairly primitive in that sense and she said that was in the Centauri constellation well you go back to the 50s Centauri wasn't necessarily considered the closest stars usually Bernard star, but she was absolutely right and she said that that was a stable system because it had more than one star and she had the whole data because she had visited there.
**J J:** And I saw the data books that she kept were the journals and she had signatures of Russian scientists, British scientists, German scientists, and American scientists who were reviewing her notes she had no scientific background to know the integrated relationships that were present in terms of changes that we were facing I remember she wrote this back in the 60s her experience was in the 50s I met her and collaborated with her on several important areas such as the sun we call our source of life as a variable star so there were things that put us into a direct relationship with her and she showed me a picture of the actual vehicle that had landed in the drachansford mountains.
**Desiree:** And I just have to say I mean going back to some of your research which we're familiar with as well Michael is that you know yes we do believe that a lot of the preliminary like the Vril spacecraft were designed by the Germans and of course you know Wernher von Braun had some knowledge about that when he came to our country, but bottom line I still feel we have the same dilemma we'll say in the 40s and 50s that we have today what are we looking at are we looking at our own spacecraft that we've designed in the US, Russia and German whatever or are we looking at extraterrestrial spacecraft this is still I think and if you listen to the recent hearings it's still the dilemma what are we looking at and of course I still believe that a lot more than we think are extraterrestrial we like to put it down to the Russians or to whatever to ourselves, but there's still a lot of extraterrestrials coming around right now and working directly with many people.
**J J:** So the bottom line here, but it can just inject this as the conclusion the bottom line here is the universe is full positive

intelligence the problem is the human nature particularly the male form of aggressiveness the desire to dominate through technology and the misuse of information circles of political science for the last 75 years as shown as pogo has said in the cartoon strips years ago “The enemy is us” We have misappropriated information we have not looked at the advantages of working with cosmic intelligence.
We do not understand that we must not put weapons of mass destruction of his face any weapons in violation of you on laws we have to grow up and recognize that we are about to join a galactic family of nations and that we have an opportunity to understand the privilege of using higher consciousness or the god centered nature of the divine spark within us to help all humanity make this great transition possible.
**DR. SALLA:** I think what you said about Elisabeth Klarer talking about the sun being given information that the sun and solar activity has been involved in some kind of past cataclysm on Earth is very interesting because that matches with some of the information I got from secret space program insiders saying that the solar warden program run by the navy actually became very interested in history of micronovas in our solar system and that the actual missions to the moon were partly conducted to get evidence to find out well how did these micronovas happen in the past, so that kind of dovetails with what you were told by Elisabeth Klarer and her contact macon.
Now more recently there is a gentleman Ben Davidson who's the founder of I think it's called the spaceweathernews.com and he's done a lot of work on micronovas and he's looked at peer reviewed papers and says that these micronovas have occurred regularly I think he's come up with a figure of every 12,000-13,000 years and believes that a micronova is imminent and I think he thinks that something is going to happen around the next solar minimum which is going to be around the 2030s. So is that something you come across in your research anything you can comment on?
**J J:** Well we worked with those involved with the Mayan Calendar System the mathematics of which have not been understood and in fact we gave a lecture recently with a person from Chile who was a recognized specialist in the Mayan mathematical system which is one of the most superb systems ever left to the human race by the cosmic

others in my logic and that suggests that between 2026 and the early 30s 2030s we're going to see gross geophysical changes.
**Desiree:** Right, but one of the things that the doctor does talk about in *The Keys of Enoch* is the fact yes that there was a shift on the even the planetary crust there's definitely always from time periods the magnetic field shifting, but if the magnetic field shifts and we're at a low ebb and we're getting close to that lower ebb we're not there yet and then you have solar flares you basically can really well say shift the whole crust of the of the Earth can have a slippage because we're being so exposed.
Right now of course we're in our little cocoon of magnetic fields so he was shown that in that there is a future change that's taking place and it's not just from the sun even though the sun is the one that's flaring up when we feel, but it's actually coming into our solar system.
It's probably having to do with more of a larger cycle of where we are positioned in the milky way itself so I'm not familiar about the micronovas, but you know that type of energy Dr. Jack talks about neutralizing electromagnetic fields can be part of all of this.
**J J:** So in the book *The Keys of Enoch* chapter 118 or key 118 what may I give the mathematics of the rapid melting of the polar areas so this is 1973 the release of torque and the things that we're seeing now some 49 years later
**Desiree:** But we really are not in that sense because that's why the extraterrestrials are here and we feel even maybe the Nimitz experience that they you know they saw something in the water off of San Diego might have been a neutralization of some of the tension being built up on the ocean plates yes on the plates themselves on the san Andreas fault, for example, and some of the other situations that we've seen neutralizing even through Kashima there were UFOs that seem to fly around there to neutralize some of that energy very similar to what took place in the 50s in white sands.
So we think they're actually here to kind of help us, but they probably can't stop everything they're helping us to advance us to contact us to give us chances to be more positive more spiritual more connected I mean why do you want a warfaring nation up into outer space you know they'll keep us here as long as they can help.
**J J:** It was Stan Freeman once said what would you help a planet

that's full of tribal warfare. Tribal warfare seems to be the calling card of most of the political establishments. In fact, the New York Times does raise hip on this right for the last there was just a few years of peace.

**Desiree:** Well actually the last three thousand years they cited something like 270 years of peace that's out of three thousand so we really not that positively bent at this point, but that doesn't mean that we're not cosmic cousins. They're not here to help us and that's why we're not here today gone tomorrow. They really are trying to feed us the information, the knowledge, the wisdom and I think you're part of it. We're all part of it to help humanity to make that next quantum leap which may not be staying only on this planet.

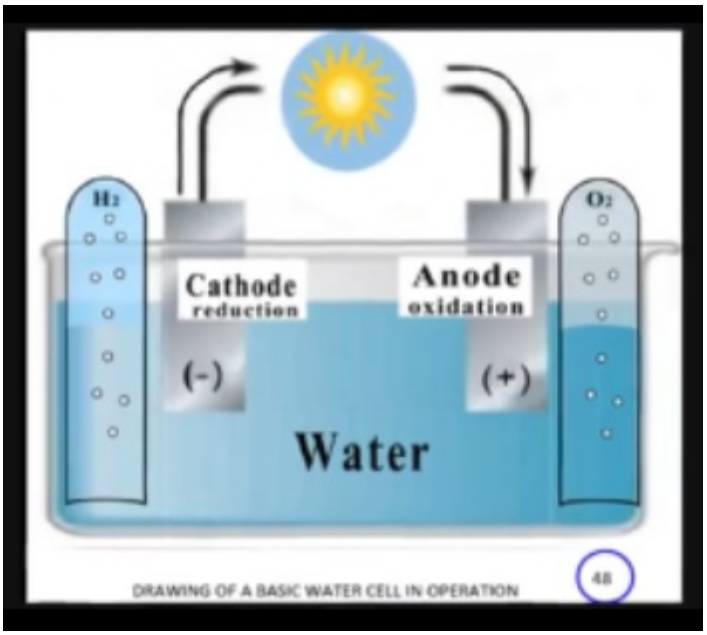
**J J:** What we need is what astronaut Edgar Mitchell said is the overview effect to see our little blue green planet from position of outer space we're all together in this rowboat of spaceship Earth and we have to correct the balance. This is what we're all about. We're trying to bring out a much greater cosmology of consciousness to show us that our ancestors recognized that there were other star systems of intelligence that periodically did drop by to upgrade human civilization and we're at such a unique time of having a space portal open for an upgrade.

**DR. SALLA:** Now one of the areas that you've done quite a bit of working on that is kind of groundbreaking is the Sphinx and the great pyramid of Giza and you actually led an expeditionary in 1997 to the tomb of Osiris which I believe was a discovery that that you had made so can you just elaborate on that and I know that there was also there's a quote attributed to you that during that expedition that that you found chambers that are larger this is the quote “Larger than the largest cathedrals ever erected by modern man” so can you elaborate?

**J J:** First of all, in *The Keys of Enoch* you will see this picture of the Sphinx more in the female form which you would say the other aspect of the human psyche the feminine the compassionate side seeing that there is a chamber inside the Sphinx itself where humans were brought for initiation purposes, but then underneath the Sphinx of Giza there's a spiral and then at the bottom of the spiral there's the human embryo which suggests that the Sphinx was built as a model of human

evolution.
**Desiree:** Right so it was later when we were there in the 90s actually show that there is an opening in the back of the rumpus you will the far back of the Sphinx and then also one on the side that they found two dates, but we did the original research that he took credit for. Yes, basically, but that was the tomb of Osiris so right between we'll say the gray pyramid and the Sphinx in alignment with the middle pyramid is if you go down literally a hundred feet which is about 30 meters you find three levels of tombs and we were with actually the restore expedition. They were the ones funding the research so it did look like huge rooms. They were clearly again a hundred feet down, cut corners, I mean they weren't not just a cave they actually had cut corners.
**J J:** So here on the seer picture from the top of the gray pyramid, the Chephren pyramid is on the horizon and tombs are in the foreground that have not been excavated as of this picture in the 1970s, but between the pyramids and the road that comes out from the Sphinx proper the avenue we were able to use ground penetrating radar and locate in 1997 what later was called the tomb of Osiris.
We had the opportunity actually to bring cameras beneath the Giza area some 33 meters with our battery systems lowered by cables and do the research which again we could not complete without permission from the Egyptian authorities.
They took over our expedition after we had found this tomb of Osiris and later in the year 1999 on a talk television special claim that they had found the tomb that we were actually there two years before and in a slight reference that Zahi Hawass says on camera oh by the way there was a group here two years before well. That was our research group.
**Desiree:** Right, so just we have a book called *Giza's Industrial Complex* in which we co-wrote with a friend of ours who's a contractor James Brown, but you can see on the tombs.
I'll try to put this in or send you a couple copies that you can see me standing there with our friend Boris Saiit and you can see how vast and large these structures are.
Yes, but I mean we still feel there's more we don't think that that's the end of it. We did some round penetrating radar with technology.
**J J:** As well as using musical instruments and then there were some

cavities behind it so we could be able to get what we will call a musical feedback system in terms of resonance of companion chambers.
**Desiree:** So the idea of *Giza's Industrial Complex* is we actually think the Egyptians use what is now called saltwater batteries or sodium ion batteries which is really the technology that's up against lithium ion batteries. If we don't have enough lithium and it doesn't really work in the long run. Sodium ion batteries will be the next type of technology and we believe the Egyptians actually had sodium ion batteries.



All it takes, they had saltwater, a lake to hold saltwater and they had plenty of sun and they some reason were able to generate energy to do what they needed to do.
**J J:** So the complexities of what does we're speaking about is in our book called *Giza's Industrial Complex* that the Egyptians at a much earlier date were able to master the use of hydraulics, the use of solar energy, the use of underground labyrinthine passageways, hydrogen gas as well as to actually perfect a certain type of gilding of metals and stones that we have yet to discover. There was knowledge far in advance of what we would call historic cultures of their time period.
**Desiree:** And so that goes back to why a hundred feet down would you ever find it too I mean it's cute that Hawass said oh it's the two of all sires because he was gone in the underworld, but chances are we believe that they actually used to store certain gases or even maybe some volatile chemicals or nuclear chemicals inside these rocks very

similar to what you find in Sweden for the storage of nuclear materials. So we feel that they understood this. They used it. They did it and it was much more sophisticated technology than we know to them to have.

**J J:** I'm actually holding one picture of an onion that was found with it a very should we say noticeable gamma ray radiation level this was analyzed at Jet Propulsion Lab showing that the Egyptians experimented with many things and use the permits as a type of information archive for a wide variety of energy alternatives. We are now reaching a point where we're reconsidering the Egyptian models in the Middle East and in modern technology and even the cotton at Giza which is a famous advertiser

**Desiree:** Right, there's using there's a hydrogen to fill pillows yes well yes, but there's a hydrogen battery actually that was designed first by Carnegie Mellon and offshoot from that and they use actually cotton to differentiate between the anode and the cathode so that's when Egyptians had gotten there was one easy thing.

**DR. SALLA:** I know one of the things that fascinates people about the Giza complex is the idea of a hall of records are somewhere underneath the pyramids, are underneath the Sphinx.

Edgar Cayce talked about it there's also ancient historians like Herodotus talked about this giant labyrinth and underneath that was this incredible complex of chambers that he wasn't allowed to see and I know you believe that the pyramid is the most logical place to store ancient records. So do you think it's all there underneath the Giza complex, a hall of records and an ancient city preserving all the records of Atlantis and earlier civilizations?

**J J:** First of all, I'll show you a schematic of the Herodotus reference to an area in Al-Fayum which is a schematic you'll see here on the page on pointing to it

Right, now of our gargantuan complex of three thousand rooms.

**Desiree:** This is what the labyrinth was supposed to be about why would you ever have three thousand rooms unless they were literally cells of energy technology.

**J J:** So it was a large energy cell collector system that was put in position in a unique way I've shared this information with some of my colleagues at Lockheed Martin SRI and they were amazed that the preciseness of how this was laid out connected with a waterway connected with the process of energy engineering just a superb model of how the Egyptians we believe under guidance of extrasolar intelligence who designed these things and leave them underground as models for future science

**Desiree:** Right, so this is less than an hour south of the Giza plateau. I just want to say this is really ground penetrating radar and you can see there's actually cavities there we're looking for the labyrinth this is done by the Polish archaeological society who was working there, but you can see that there's probably is some sort of destruction and a Herodotus as actually you know does record this.

**J J:** So to answer your question directly. There's not one room that's specifically the Hall of Records is the whole mathematical schema that's laid out above ground and underground together.

**Desiree:** But that doesn't mean that there aren't sacred cavities both under the Sphinx as we saw also with ground penetrating radar there was, if you look at The mystery of the Sphinx [old movie] and was a documentary Dr. Hurtak was in one of the versions you can see that there was a whole literally cavity underneath the paws things just like Edgar Cayce had said and also I know you've looked at the Versailles

Mountains. We were also there at the other Sphinx and there's caves all over that location.
**J J:** So we're talking about now eastern Europe Romania which is now connected with the Black Sea area if you drop a plunk line from that particular area what we're referring to the Romanian Sphinx going on quote you're not far from the actions of the Libyan desert of northern Egypt.
And of course the teaching that we had received was there was an underground passageway from what we would call the Carvation Mountains in that area directly to Egypt as well as from Israel to Egypt and so the pyramids of Egypt represent really the central matrix of secondary matrices that were so designed that people could go literally underground through these elaborate the internal systems and entertain information that was important when Egypt was according to the Egyptian Coptic Nag Hammadi texts the schoolhouse of the gods small g.
**Desiree:** And it does not mean that things aren't stored underground. It will find certain crystalline deposits as we have in the Yucatan that actually show like certain types of coding mechanisms. So all over the world I believe that there were deposits of ancient wisdom. One could call them the Hall of Records, but more uniquely to just tie it together and see that these were all cultures that had some sort of connection to each other and had that wisdom and knowledge of going back to Atlantis or going back to Mu.
**J J:** The Sphinx face is important for reasons they're quite obvious. The Sphinx represents the human body the human mind position on the body of the lion which according to the ancient theosophists and philosophers represented the solar matrix or the solar logos.
**Desiree:** So Dr. Jack says that putting our face makes us being able to conquer the solar vehicle and when we can we can literally go off of this planet.
**J J:** And use the solar spectrum for energy this is what the Egyptians were showing us with their saltwater batteries. Amazing research is yet to be done and we're very privileged to know this and to have had the opportunity to work behind the scenes underground as well as at the very top of the primitive complex, but throughout the world.
**DR. SALLA:** Well I know you've been to Romania and you've actually

seen the Romanian Sphinx and some of the information that I've recently become very fascinated by is in this series of books called this Transylvania series.

And it talks about the Hall of Records under the under the Romanian Sphinx and what was interesting that it mentioned a tunnel going all the way from that Romanian Sphinx to these Sphinx under Egypt so I thought that was that was fascinating that is that kind of corroboration.
**J J:** You know there's also from colleagues who work with the late Dale Heineck whose parents were from Czechoslovakia mine also from that region and so there was a folklore in eastern Czechoslovakia of the importance of these underground chambers that were built thousands of years before modern civilization.
*60m
**Desiree:** And people were living in caves and I mean in a positive way they had sacred caves that they would go into we visited one of them there's several of them that you can go as a tourist and also we visited and I can't say it correctly, but it's Sámerigúgusta Regina which was the capital of the Dacians for about 100 BC and it's amazing I mean it's huge in that sense, but it also had looked like Stonehenge type this was the eastern part of the Roman Empire yes so, but it was this was before the Roman Empire that it actually had well say Stonehenge type mathematics and an east gate, west gate the way the sun came in you have literally standing stones that were just one small part of

this huge complex.
So that whole area was very, very sacred they had a lot of wisdom, a lot of knowledge it was not a primitive culture by any means.
**J J:** It would not surprise me that some of the greatest discoveries that to me made would be made in the mountains of Romania showing these vast underground caverns that perhaps contain some of the artifacts of the cosmic cultures that briefly visited our planet.
**Desiree:** And just to be weird of course the whole Transylvania is part of that going into Hungary and all the knowledge and wisdom of being able to make some strange concoctions. They had a lot of information about plants and wisdom and knowledge from ancient times and I believe they totally incorporated into these sites.
**J J:** But what you need is the actual technical tools otherwise we're simply talking blue sky so this is where Desiree and I played a very important role behind the scenes of getting the proper archaeologists the geologists the most sensitive experts and also those who are working also with what we will call metaphysical music or acoustical physics to go in and do should we say the initial groundwork for the deeper probes that will be made.
It would not surprise me knowing *The Keys of Enoch* spell out at the planetary map of the great permit with its spokes going to Europe going to north Africa going also into the far and your east.
**Desiree:** And I believe not far from there are some of these places that a few people claim that there's buried UFOs I don't you probably heard of that as well so you know I believe that there was ancient UFOs.
**J J:** But we've come now into the 21st century and this is a time of great shall we say discovery in the worth of the opinion that this is the most important time to be alive to connect the ancient history that's been overlooked with the future history of contact with the cosmic intelligence you would call the Galactic Federation and beyond those that were referred to in ancient spiritual text as the Elohim or the forces of the divine.
**DR. SALLA:** So with those ancient UFOs that that are buried I mean this is one of the things that some of my sources are being talking about are space arks that these are quite ancient and that they're buried all over the all over the Earth and that they are designed to

perform various functions depending on whether or not the Earth is about to undergo a kind of cataclysmic set of changes to kind of rescue people or whether the Earth is about to go undergo a kind of graduation into the cosmic community and there and they their function is to kind of like reveal themselves and share this advanced technology so what do you know about space arks buried around the Earth or in our solar system

**Desiree:** Why would you say in general I think both are happening exactly what you said that's why we really like some of your research Michael because there's no doubt we talk about the 12 grids even the 24 grids that are being activated around the planet in fact we'll probably hopefully get to Egypt later this year, but in addition to that we also want to call people's attention to the Mauritius an island off of Africa that has seven pyramids no one knows even why they're there we also hope to go the Azores where there are pyramids I mean people don't even know there's pyramids in the Azores I mean they're also all over the place these are all part of a grid network structure Dr. Jack actually came out with that in *The Keys of Enoch* both artificial and natural grid points that are being activated.

I grew up by Miami and the whole idea of Bermuda Triangle that's an activated grid point if you listen to reports right now of what places have had the most sightings of UFOs they'll tell you California well because it's a huge state and people are looking up, but then the second place is Florida because there's bases off of Florida there always have been bases off of Florida I saw a UFO when I was 15 years old which is probably where I got interested in his research the idea is that you know these things are now starting to come up and is even the military said there's more and more sightings.

Yes, some of the sightings are our illusions, are fakes, are government research, but there's a lot more extraterrestrials also starting to activate here. So, yes the things buried underground are starting to be activated as well

**J J:** And your reference to the arks is very important. As you know some of the great pyramids have on the very top in should we say like oochmall something that looks like a french bathtub mean models of small arks, of boats that survived cataclysmic changes. So in terms of places throughout the world we would say with our indigenous

brothers and sisters there are 12 possibly 13 major areas around the world that represent the historic cultures of contact that are symbolized usually in a primitive temple or design of an ark that's symbolized in the context of a much higher perspective of the boat of life for the blood of the dead going back into outer space connected with the stars of Orion or as it was called in the Egyptian insock, the imperishable wine so we're looking for younger geologists archaeologists who are interested in future science because we're writing textbooks and we've got film of our research at the Romanian Sphinx that will be released hopefully sometime in the near future so people can come to their own conclusions that we've never been alone that the mothering cultures of the world have always used these basic symbols of connecting really the female side of life not necessarily the male side which came later, but the female side of compassion of rebirth or regenesis with the mothering heavens the mothering nature of the universe with Mother Earth.

**DR. SALLA:** I know you've also done some work in identifying stargates or portals that form a network all over the Earth and in our solar system and beyond. So how do these stargates work? How do the portals work? And I know you've done a lot of work with acoustics. So is it something to do with kind of acoustical sound or some other kind of frequency that's essential for being able to activate and use these portals or stargates?

**J J:** We'll be publishing a book that deals with the refined studies that we've done over many decades in the Egyptian temples and it's quite amazing. We will show you micrographs in a documentary or at least in a textbook that will revisit these historic chambers, for example, on the Great Pyramid which are more than just ordinary chambers. They represent really areas of the human body personified in terms of sound waves. At one point we did some testing of acoustical physics this does ratio to in this particular picture the whole grand gallery of the Great Pyramid of Isa bid up in golden life for a fraction of a second so this is an actual picture of an actual document part of a project that we're doing specialists who work with NASA even the areas of space communication who are interested in what we will call the use of what we call a musical physics that the ancients had designed in terms of these inner chambers of raise consciousness quickly and make a

person aware that he or she was part of a greater template of understanding.
**Desiree:** Dr. Jack calls in the case of Enoch all these pyramids around the world proton monitors are actually placed in certain places to be activated at a particular time, but also to send and receive information about what's going on around the planet. One of the places in the Merkaba experience he had, he was actually taken through the belt of Orion so he said this in the 70s and much later of course people started saying yes the Orion structure is a type of vortex point and that's where he and it's really we're in the Orion arm of our galaxy which is why I think we're so connected.
**J J:** People did not know at that time. We're talking about trans-physical experiences of our consciousness.
**Desiree:** Going from this reality this 3-/4-dimensional reality into other realms so fifth, six will even say 24 dimensional realities he went through, we'll say, the belt of Orion that takes you to other realities. So all these pyramids are like vortex points around the globe and they will be activated by ourselves all of us collectively as and I know people have been doing this for many years themselves going to put crystals in key places right now we're actually filming from Sedona which has had lots and lots of contact and sightings from people who just come in and visit.
And they say “Wow I saw those lights!” So these are all the different vortexes that are being activated at this time because we are being prepared for contact and also for direct abilities to go beyond the limitations that we've had for the last six thousand years.
**J J:** So if you look at the statues in eastern Ireland, for example, you will see that underneath the gargantuan statues the hands are connected in position of a pulling of the belt.
If you look at the statuary in Gobekli Tepe in eastern Turkey or Anatolia again you look at these gargantuan statues the symbolism of the belt is important the hands are placed. We believe that these are exoteric as well as esoteric symbols of how the ancient so many cultures connected with the belt of Orion which was probably the mothering culture or what we would reconstruct as to be the doorway for other life forms that are very advanced, that are really in an energy form rather than any physical technology that are behind even the

extraterrestrials themselves.
**Desiree:** And being the female here I'd like to also point out that Dr. Jack mention also the Pleiades is being a key constellation. In fact, we've his information was saying that our coding structure for our species action came from the Pleiades connection and that took place way before we'll say Billy Meiers even came up with that term. Actually I think they were almost simultaneous as Billy didn't publish it until after *The Keys of Enoch* had come out, so the Pleiades are connected with Orion.
The ancient Lakota peoples saw that there was the big Teyani which had the Pleiades, the belt of Orion, and Sirius because the Sirius constellation of feminine energy was connected with the Queen's star shaft as well or air shaft so that they saw the Lakota…
**J J:** As you were speaking of a ceremonial map that was used by the indigenous in South Dakota.
**Desiree:** It's a straight line then practically between the Pleiades and the belt…
**J J:** So how do these people in the plains states of the United States have this symbolism that matches what we find in Egypt for that matter what we find in certain areas of southeast Asia?
**Desiree:** Well you could say that they just simply look to the sky and figured out some things, but when you go then to the Yucatan and you realize that the Pyramid Temples are aligned to star systems then you realize it means much more.
**J J:** In short we need a musical anthropology to fill in the gaps because acoustical physics is in our logic the missing piece between these historic structures and what electrifies or inspires the mind to see beyond normal space times.
**Desiree:** And one could say that our body is vibrating in a certain three-dimensional frequency vibration and if you change that frequency vibration to a higher vibration you actually start operating in the fifth dimension. I believe a lot of these extraterrestrials are operating first and foremost in the fifth dimension and then have to come into the third dimension if they are to be seen by us.
**J J:** So the music of the series is really the music of the temple of understanding. Once we activate our heart with better compassion for all people we understand that there's a higher god source far beyond

the extraterrestrials we begin to grow up and realize that our body is the temple of understanding for all the temples being brought together according to a higher sacred geometry and being activated a higher sacred music and a higher philosophy of consciousness this shows unity rather than diversity and destruction.

**DR. SALLA:** Well one other more controversial topic that I just wanted to get your thoughts on was this the Wingmakers that apparently in 1972 1973 there was a discovery of extraterrestrial artifacts at Chaco canyon in New Mexico and an elite division within the NSA called the ACIO Advanced Contact Intelligence Organization was established to explore something called the ancient arrow project that there were like 23 or 24 chambers as discovered there so do you know anything about the Wingmakers, the Chaco canyon discovery in 1973 and any research into that

**Desiree:** Not really the particular artifact, but we have spent time in Chaco canyon and it definitely is In alignment with ancient, ancient times and not only they look at the sun and the moon, but also an alignment with the stars and we have seen ancient artifacts throughout the world that are clearly older than 10,000 years whether you want to say they're extraterrestrial I think in some cases you have seen even space metal that seems to be of ancient origin.

**J J:** The famous actor Robert Redford did a documentary on Chaco canyon. He has a beautiful dialogue where he goes through all of these interesting relationships over shall we say ridges and mountain passes that would be very impossible until recent times of geological tools to make such exact alignments over long or should we say in large periods.

**Desiree:** We also did studies that show how the people of the Yucatan and we'll say the southern Mexican population did come especially when they had climate change to the north so that they actually came into the United States. So the whole area of the United States is not something to say that that's a new culture. We're a very, very ancient culture and really will lot more information about our contact with extraterrestrial civilizations and we'll say the star people because we consider some of them beyond extraterrestrial will be coming out.

**J J:** So we're going to be releasing more of the archaeological work we've done over decades we've been so busy we haven't had a chance really to publish all the details. Needless to say this brings in a panorama of recognizing, as the indigenous tell us, that this is the time of gathering the tribes where we begin to see these 12 or 13 areas of information converging according to sacred alignments and even logarithmically speaking as the scientists of recognizing that there are certain mathematical relationships that follow in terms of planetary changes even stock markets peaks and falls follow a type of mathematics yet to be understood. Max Tegmark from MIT and other places has suggested that we're part of a mathematical grid that just beginning to unfold it. So he believes that the mathematical grid though is also connected with higher consciousness without which we're simply dealing with numbers. It's series of calculated situations of solar and lunar eclipses.

**Desiree:** Right I just want to say regarding Chaco Canyon which is really this amazing site. We're not that far from there in Sedona, probably about three or four hours, five hours maybe depending on what part you want to talk about and there was also something known near here where people constantly saw extraterrestrials and ETBs that would make their appearance. So this area is a vortex and as well as other places around the country and the world.

**J J:** In fact, the US authorities have actually placed a holding position around this area because of unusual physical events, so we know that there are places in southern Utah, places in Arizona, New Mexico that seem to be areas of interest about the cosmic others and I'm speaking of those that would be beyond the physical dimension.

**DR. SALLA:** So my final question. *The Only Planet of Choice* that Phyllis Schlemmer wrote talks about The Nine and talks about the 24 extraterrestrial civilizations and at the time it was believed or hoped that they would reveal themselves sometime in the 1970s. Obviously that didn't happen. So my question to you is, is this what we are about to witness now that the 24 civilizations or what you call I think the engineers or what others call the Seeders have returned and that they are in about to reveal themselves?

**J J:** I would say definitely this is the time where we will accelerate information to recode an ancient prophet the book of down to chapter

12 says in the original text knowledge will speed up and the humans that is they have saved who choose to be chosen or taken the higher path will be numbered by the higher with the higher star rungs of cosmic intelligence or divine intelligence.
I believe we're on the doorstep as seen through the disclosure projects the governments throughout the world and by ourselves several levels of cosmic intelligence and we must make a choice to take the great leap forward. As astronaut Gordon Cooper said to us one time with those who really represent the Christ force or the Christ ideal.
He was the man in faith who played it well. He was on the space mission as one of the original pioneer seven. I shared with him research that we did privately with the famous writer Sidney Sheldon that we are at a breaking point that we must understand the unity of the cosmic intelligence and in that sense we'll understand the names of god to be a protective linguistics, a protective language.
It will take us really beyond the cat and mouse game of what we have seen in the last 75 years of government mismanagement of knowledge into a whole new realm of being citizens of space. We will take this cosmic leap Michael from being shall we sat humans as humankind to spacekind. We will wake up and realize the opportunities of a higher consciousness, a greater mind, a greater compassion, the heart that we need to forge a whole new destiny with our cosmic kind of art.
**Desiree:** And I always just wanted to say what his experience is that it's not just us that's going through changes. It's local systems of intelligence are also going through changes. So the level that's coordinating this you call it the Seeders are the those at the beginning of time that will come also will say the end of time even though we don't think it's the end.
It's an alpha omega, alpha, it's the beginning of a new time technically that we're going to go through, but they are coordinating this change this shift of reality because some of the planets are shifting.
They will not be able to we'll say house the cultures that they have been for the last six thousand years we need, but there's a change going on and that doesn't mean it's the end at all.
It's really just the new beginning and this is what the 24 civilizations

we could say, some people call them the 24 elders that they are coordinating. The elders actually reflect the civilizations that are coming here to help humanity, but also to all the cultures in this sector of the cosmos that it will experience change.

**J J:** We have outlined more than 82 different races that we're in touch with and I'll be publishing this very soon, but the bottom line and all of this is what the ancient biblical writer spoke of the image and similitude the original language based on *mein nou ken wutte nou* [`I know what you mean`] means we are associated as cosmic cousins with those who look like us who will work with us because of the psychological affinities.

The similitude represents the energy field of a greater process of evolution connecting the planetary evolution with the cosmic evolution. We'll recognize a whole new process of consciousness as the source of mind as well as matter. Consciousness is the source of reevaluating of all new science that is positive rather than negative in the sense of looking at higher options and possibilities.

And finally we'll see hopefully as a result of this a new spirituality that brings together the scientific and the spiritual side of the human experience. The human psyche is beyond the third dimension as well as evolution.

Evolution doesn't stop with Mother Earth. It goes into space. We're now taking that great preparation for the great leap that will take us into what I will call affiliation, fellowship and unity with those who are the cosmic others, the divine Elohim is the ancient Hebrew and Aramaic writers spoke of.

We are on the doorstep of one of the greatest moments in the history on one line. On the other hand we are on the greatest moment of history and the downward entropy if you take the backdoor of fear, negativity and ego.

And ego assessment typically from the male mindset that once only war, always aggression, always negativity. No we must go beyond the thoughts of little green monsters from Hollywood to realize the prize minds of the super minds the super angelics that are here to help us.

**Desiree:** And that was the Nine because they considered the nine principles of life and they were positive principles.

**J J:** Symbolized in the names of the nine archangels or the nine baha

avatars.
**Desiree:** Also there was a nine connected after the eight of the octolod with the Egyptian as well
**J J:** Right, so we're at a time of fastening our seat belt Michael
**DR. SALLA:** Yes, that sounds fantastic. Well that that is a really wonderful way to kind of finish up.
So where do people go if they want to learn more about you and to buy some of your books and to find any kind of videos about the work that you've done.
**Desiree:** Right, well it's mostly at keysofenoch.org we also have some scientific papers at futurescience.org and we're also creating an app that has some of our material, but the books are mostly at keysofenoch.org
**J J:** We have also books that deal with the ongoing research in psychology and parapsychology, the work that we did at SRI which I consider the real x-files. We have worked in the ongoing work with Neoegyptology that is the exploration work in Egypt in several different locations and upper Egypt.
And also we have worked on the extraterrestrial needs for a new space law in my book called *Negotiating with other Worlds* done with several engineers in international space law studies that suggest we have to draw up a new resolution. We have if I can quote this in conclusion:
“We need to draft a freeze on the prevention of the placement of weapons in outer space, the use of force on or the threat of force against space objects. We have to understand the U.N. charter to be a positive blueprint of how we must show ourselves to the cosmic others that we are peacemakers in space and by doing so we will continue the Adam and Eve story. We will be the new Adams and Eves and the gardens of the future will be biospheres where we will bring our children grandchildren as we explore the vastness of creation through the divine element, the divine image that's within our hearts.
**DR. SALLA:** Well, wonderful finish. That really is great information for people to digest. For many this might be the first time that they've heard of Dr. Hurtak and Dr. Hurtak, of both of you, so I want to encourage people to go out there check out their website to find out more about them. I want to remind people about my upcoming

webinar where I talk about the halls of records, portals, and extraterrestrial heritage where some of this information I'll be going diving deep into that. So definitely check that out on exopolitics.org So I want to thank you both for coming and being on Exopolitics Today.

## Return of Ancient Aliens, Giants & UFO Disclosure is Underway Claim Veteran Researchers

https://rumble.com/v3vdl0f November 16, 2023

Drs. JJ Hurtak and Desiree Hurtak have for five decades studied UFO reports and confirmed the existence of extraterrestrials and higher dimensional beings (aka celestials) interacting with humanity. They describe how ancient aliens (aka creator gods) played a role in genetically engineering modern humans and giants, and how pyramids played a critical role in the ancient world.

JJ Hurtak's 1973 book, *The Keys of Enoch*, describes 64 keys that are required for humanity to be prepared for integration into a galactic society. Understanding ancient technologies and pyramids, and learning about extraterrestrials living among us are all important steps in our individual and collective awakening to the greater cosmic reality around us. The Hurtaks also describe their private meetings with William Tompkins in the late 1970s, who revealed the existence of a US Navy-run secret space program that extraterrestrials had helped design. They finally describe the existence of a Galactic Federation that is assisting our planet to prepare for extraterrestrial disclosure.

Dr. J. J. Hurtak and Dr. Desiree Hurtak are social scientists, futurists, authors and founders of the Academy for Future Science, an International Organization. Their public presentations on the UFO phenomenon go back to 1977 when Dr. Hurtak was a presenter at the First World Congress on UFOs in Al Capol, Mexico along with J. Alan Heineck. In 1979, J. J. Hurtak was one of the first to give a briefing to the world press on extraterrestrial biological entities in Mexico City. He was also a presenter at the First Government-Related UFO Disclosure Conference when cosmic cultures met in Washington, D.C. at American University along with Dr. John Mack.
**ANNOUNCER**: You're listening to Exopolitics Today with Dr. Michael

Salla. Your source for the uncensored truth regarding the human extraterrestrial, global and political agenda. Click the like button and subscribe to this channel. And now, here is Dr. Michael Salla.
**DR. SALLA:** Well welcome Dr. Hurtak, J. J. and Desiree. Welcome to Exopolitics Today.
**J J:** Thank you Michael. It's always great to be in touch with you and as you know we've been traveling throughout the world since we last talked. We were in Egypt doing archeological studies and we're back on home soil right now.
So we're ready to catch up with you on a variety of themes.
**DESIREE:** And there's so much going on right now from the disclosure to just people's interest all over the world starting to release more and more information about non-human origin spacecraft.
**DR. SALLA:** Yes, well the idea of non-human intelligence is definitely in the public eye now with recent whistleblower testimonies. But you're in Egypt and Egypt has a rich history of non-human intelligence or ancient aliens and especially with pyramids. So what do you know about that?
**J J:** We know quite a bit. In fact, I'd like to use this as an opportunity to share with you in our audience this book we published a few years back called *Giza's Industrial Complex*, which is our studies using remote sensing technology that is Ground Penetrating Radar, musical technology, etc. to examine underneath the causeway that connects the three pyramids in Giza. And we were able to come up with the evidence of the Tomb of Osiris in 1997, two years before Zahi Hawass, the major archaeological specialist announced it to the world in 1999.
**DESIREE:** But I think our big interest in all of this is also the fact that it's much older. And when we went back to Egypt this time more and more, we'll say archaeologists are starting to look at that and see that it's not 3,000 years old. I mean it's probably not even 6,000 years old. It's probably from the time if you want to say minimum Atlantis. And so how did they get this technology?
That's the real question about everything. And we do think it came from the star gods. And even if they weren't the ones to put brick upon brick upon brick, they were the ones to give the information.
And actually our book, *Giza's Industrial Complex* talks about the fact

that we believe they use some of these technologies, these temples, these places for hydrogen technology, for hydrogen energy. Because it's very, very simple. And it looks like they could have done that and created certain types of gases they would have used for lighting and also just hydrogen water, which is a very popular thing coming out right now, for people's health, a lot of interesting things that we're discovering today that we think was known 12,000 years ago.

**J J:** I'm going to show the audience again, a picture of me, approximately 110 feet underneath the Giza plateau with a handheld ground penetrating laser unit. And pointing with one finger to the lid of what came to be called the tomb of Osiris. At that time, we were not sure what we were uncovering and the Egyptian authorities were careful as not to allow us permission to excavate.

We had permission to bring cameras underneath the ground to use exotic technology, but not to excavate. Fortunately, we were able to go down several inches and find the lid, which of course, opened the conversation with Hawass and the Department of Antiquities, which then took our project to be their project.

And so we were kind of left out of the action in 1999 with the Fox television release. But although he said, he said, by the way, there was a group two years before we had a large group of geologists, archaeologists, linguists, and music specialists.

So that really was a verification for us that we were entering a new period of time where Osiris represents according to Egyptian tradition, the Lord or teacher who brings the music to the planet, knowledge of the stars and who represents what comes to be known in philosophy, theology, as the ascension process of leaving Earth and going to this new star system.

**DESIREE:** And the star system was Orion. And we feel that that is a key, well, say, portal of ascension, not only for just us going there, but what happens after that? I mean, that it connects to other multi-dimensional realms outside of this, even maybe this whole universe.

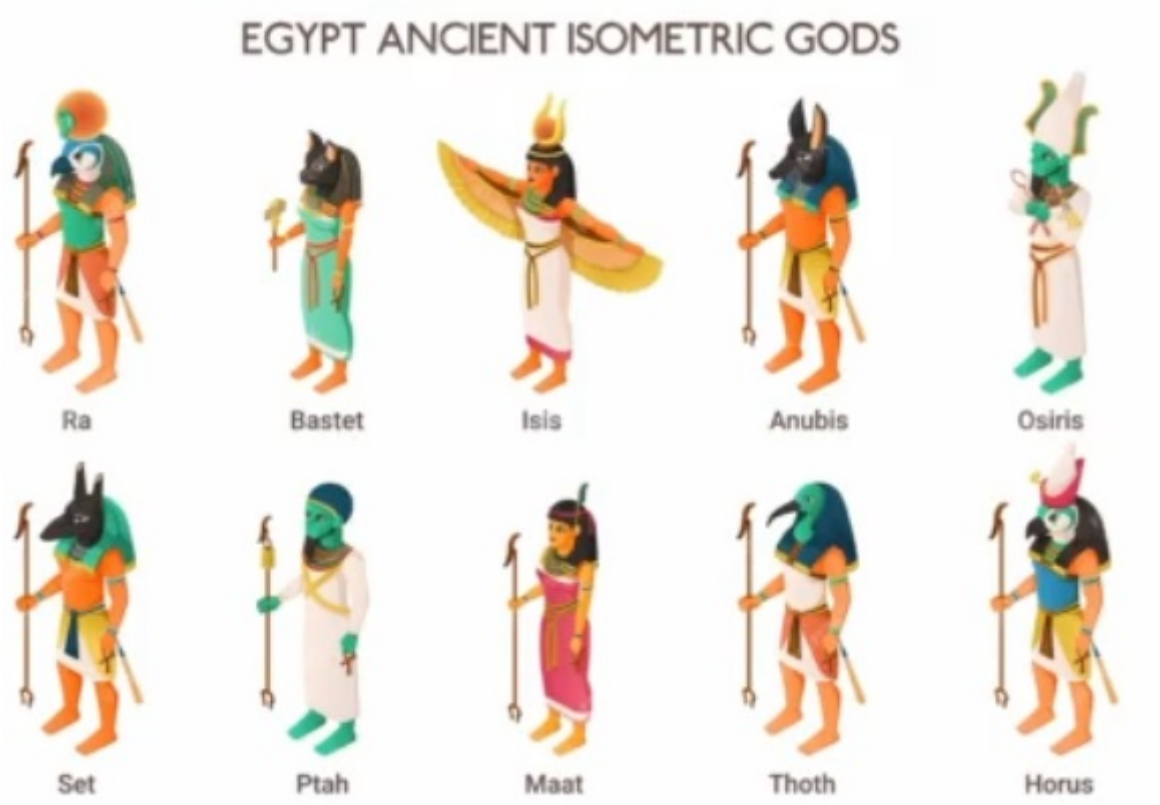
**J J:** So the bottom line is the Giza complex would be the natural place for a time capsule of information concerning the evolution of the human race. It would be the ideal place where cosmic intelligence outside our system who would want to come back and look at these gargantuan landforms and suggest that we're going up a few inches

on the side of the pyramid as a model of evolution as it was understood by the gods.
I would prefer to use the term cosmic engineers rather than gods because this is a term that has been demythologized so much it doesn't seem to have any weight in intellectual academic circles. But nonetheless, Desiree, you're right. And Michael, you're right in making assertions. This is the time of the return of the gods or cosmic architects.
**DR. SALLA:** Well, there was this triumphary, if you like, or the three principal Egyptian gods, Osiris, Horus, and Set were engaged in this struggle for power.
So are we just talking about different factions of extraterrestrials that competed for control over Egypt and control over that part of the world in ancient history?
**DESIREE:** Well, it's interesting because we're starting to see that this planet is based on this kind of tug of war. And it's sad to say that. I think there were a lot of people who were positive thinking, oh, we're evolving into this greater reality. And now we have what, two wars around us.
So I think that it is a reality that we are living in a consciousness field that is not limited to the Earth, but into the universe around us that has this dichotomy, this duality, this struggle of good, bad, whatever you want to call it, at least me versus we, that whole thing is there.
And that was present with Cain and Abel. And it's the same scenario that you see in both the Mayan culture, right? In a sense, there was this death situation that happened. And then the twins went to find who killed somebody. And also you find this in Egypt.
So you basically had Osiris and you had Seth. And when Osiris came back from teaching around the world, his brother Seth, and it's interesting, I'm just going to throw this at the form of Osiris is like a man's form. The form of Seth is more like an animal form. I don't know if it's a jackal, a dog, something that's missing.
No one really understands the form of Seth.
So, but anyway, Seth killed Osiris. Then Isis comes on to the scene. Of course, she was the wife of Osiris. She puts back all these pieces together because Seth had cut him into pieces. And then she kind of gets him to be together with her, even though he's dead, and they

form Horus.
So I'm just saying in terms of the linearity, it's this dichotomy that we're living in that is present. And I think we're going to see that in many, many ways and forms, we have not conquered that duality yet.
**J J:** And the Catholic Encyclopedia uses the story of Osiris as an example of what is called a proto Christ figure, one who comes before the story of the New Testament, Jesus the Christ of authentic resurrection. Ironically, the early Catholic Church with the stations of the cross, mark 14 stations of the cross. We believe there's a mathematical similarity because the body of a service is divided into 14 pieces. So subconsciously, the Coptic Church picked up on the symbolism that was placed on and reacted within the concept of the New Testament.
**DESIREE:** And if you want to say why 14 in terms of our cosmology, it's the seven physical chakras, and then there's actually seven higher chakras. And we're disconnected from our higher cells. We think at one point, we were all Adamic species. That means male and female. And basically, we came from light energy into physical matter. We came into this realm of duality, but that wasn't our original essence of who we are. So reconnecting the 14 means connecting our physical body with our other self body.
**DR. SALLA:** What's the connection between the Anunnaki, the Sumerian gods and Egyptian gods? Are we talking about just the same extraterrestrials that colonized or set up colonies in Sumeria that they also did the same thing in Egypt? Well, what's the connection between Enlil, Enki, Marduk, and Osiris, Horos, and Seth?
**DESIREE:** Well, let me start with this and then Dr. Jack has a lot to say, but basically, we believe we're living in a realm that has many extraterrestrial intelligences, as well as many hierarchical intelligences. And when we all, so to speak, colonized the planet, the gods or the star deities were part and parcel of our management here. So there's a lot of different hierarchies, a lot of different groups that do work together, some of which don't work together and are in opposition to one another.
**J J:** And this is the whole background to what we call comparative religion, whether we're sitting with Frank Moore Cross from Harvard University, or Robert Grant from University of Chicago, who I studied

with years ago in ancient Gnostic texts. The Middle East was really the crossroads of great civilizations from the east to the Near East and North Africa. And so you'd find a common blend of ideas of higher theologies and cosmic stories from Sumeria that filtered down into the Semitic traditions there, then transposed into Egypt, Egypt then absorbs traditions coming from East Africa, North Africa.
So it's hard really to clear the deck and say, this is where this type of cosmology begins, but it is clear that the god of the prophets, the god of the Semitic prophets were good editors and were able to take the Eucharitic texts and the different Acadian texts, the proto-publicing texts and say there was a god of all gods, the most high, Elohim, out of which the stories of creation come. And it's up to really the experts now to come out with their assessment that for 6,000 years we've been dealing with local theology, we are suggesting in our work that the Egyptology goes back at least 30 to 40,000 years before presence and that there's a much larger story.
**DESIREE:** Yes, let's take for a moment even the Greek gods because most people are more familiar with them than even Anunnaki cosmologies. But in actuality these powers were able to come here and influence us. In fact, you have the whole scenario with the Tower of Babel.
**J J:** Because as we see here, the larger beings, the larger Adamic beings addressing the human race.
**DESIREE:** But in actuality that if the whole scenario of the Tower of Babel had not taken place, we were being given information that could destroy Mother Earth, that could even destroy ourselves.
So it was necessary to divide. We think in the divide the languages. We think actually in the last 6,000 years, we have been watched and quarantined.
Now everyone knows what quarantine means, but we have basically been quarantined from some of these other forces that would interfere not only with our genetic makeup, but you know how we feel about the genetic makeup, we feel we're Adamic species, one clear species that exists in the universe, that could be taken advantage of because we have a higher consciousness connection. We have a soul consciousness connection with some of these other extraterrestrial species don't have. But in actuality, we've been protected for our own

ability to grow.
Now we feel that quarantine is being lifted right now. So we're going to be bombarded literally by all these different levels of intelligence that had frequented the planet thousands of years ago and that are going to frequent us.
**J J:** And this includes nonhuman like intelligence, strange faces on human bodies, which ironically appears in some of the reliefs in in Egypt. We were just there doing extensive work. My work in Egypt began in the 60s when I was studying Coptic literature. And then I progressed to other areas of near Eastern studies that we see on the screen now the different anatomical forms of the gods. But as you said, amongst all of them, there are some that stand out.



And of course, we know the important would be the Osiris figures suggesting to the human race. We have a destiny in space in the rich Orion. The figure of Horus represents the cosmic eye, but it also references a mathematical grid, how the eyelids, the inner parts of the eye, the iris, and the brow all represent mathematical terms of a grid of 64 calculations. And so all of these symbols have mathematical and what we call musical realities that when enacted bring about other

relationships.
**DESIREE:** But I just want to say when we're talking about different face forms, I mean, you can see that Horus actually is, it's a hawk, of course, it's like a bird form. And you also have Thoth, which is also a bird form. Then you have Set which is a lion form of the lion face gods, which we're talked about in Coptic philosophies and many others.
So you have the lion gods and also cat face gods like Bastet.
So you have these and if you go to the Adoad? which is in the Dendera temple, you find actually eight figures, they're four male and four female gods. And the females are mainly serpent type beings.
So you have these reptilian forms of gods. And we don't think that these are just symbolic pre pictures. These were beings that were frequently visiting planet Earth.
**J J:** And we say this, we make this assertion because we were just there with students from Europe and from Africa, people have different cultural backgrounds, but singing the Egyptian names and doing the mantrams with deep and profound dedication allowed several of the students to actually see momentarily the wall literally opened physically and they could see a different set of hieroglyphic figures that they were able to write down with precision.
So we know there's a vibratory physics that's connected with the chambers of the pyramids, why they were constructed. And when you use certain musical cues, if you have musical abilities, singing the Egyptian names, the mantrams in a particular way, predictable events can and will happen, we've documented this.
**DESIREE:** Yes, and I actually had an experience while we were meditating the King's chambers in some years back, that the walls dropped away and I was out in outer space. And that same thing happened to a friend of mine a few years later. And then strange enough, we were recording for deep space, a guy at a TV show, and someone else had said on the program that we were also on that he had that exact experience while he was meditating the King's chamber, the walls dropped away and he was out there in space.
So these things there's some sort of energy construct there, mostly probably based on sacred geometry, that allows these things to happen.
**J J:** I'd like to show one picture to the audience here. It's maybe

difficult to see without close up, it shows the interior of the Grand Gallery and the Great Pyramid lit up in Golden White. This is a response to the chanting and the vocalization that I did years ago, I had a very good voice as a tenor and singing the ancient Egyptian and Hebrew mantrams together, suddenly a paraphysical columnar light manifested in the center and began to move up and down the region of the staircase that you see on the sides. And so the guards that were there were shaken visibly that the sound structure keyed in the overtones to react in such a way as to literally create a spark of light that lit up the whole interior.

So we know there's a whole process of why the pyramid is called fire in the middle. It means there's a middle column of light associated with the powers of the mind, the powers of the voice, the powers of the heart. And when this is assembled and used in orchestra to populate, things will happen of mind over matter. And this is why we feel these pyramids represent a type of Bible in stone, a representation of a much earlier cycle of history that perhaps is connected with return of the extraterrestrial architects.

**DR. SALLA:** Well, one of the chief extraterrestrial in the Egyptian pantheon was the sun god Ra.

So are we talking about an actual extraterrestrial? Or are we talking about some personification of this living entity, the sun? Because many academics will say, well, with Ra, the sun god, that's just a mythological personification of the sun, that there was no entity associated with it. But of course, in Egyptian mythology, Ra is a chief god.

**J J:** So what can you clarify that? Yes, in Egyptian cosmology, there is the traditional nuances given to the primary factors of the gods, all who have temples along the Nile. However, in the deeper mystery schools, and this I emphasize is very important, those that work behind the scenes in the initiation text, in what is called the breathing text, there is a realization that these are much higher than what we would call the normal Egyptian figures or heads of chiefdoms, kingdoms, these are the what we will call the alter-terrestrials, beings of godlike quality who do not die that exist in the region beyond evolution, who frequent our solar system and have rooms of initiation like the chamber of the sun, one yet to be found in the great pyramid.

But the Japanese and the French that we talked to have done a great job in locating three other new chambers and we suspect there are three others, one of which could be this chamber of the sun or Ra, suggesting that we're looking at not normal events or normal concepts of light, but superluminal light, light from a much higher realm that interpenetrates the realm of the human planet, awakens the human planet, and ultimately prepares the human race for the arrival of the entourage of Ra or what we will call the celestials.

**DESIREE:** Right, and so in a certain sense we're saying there was a thought forms from hierarchical intelligences connected with such things as the Scott Ra that went on to create this reality, this universe, we call it an experimental realm that we're living in, and so it's not necessarily extraterrestrials because we drop extraterrestrials, one level down to those who were created in this local realm of life space that we're living in, but behind that is the consciousness of hierarchies, one could call the sons of God that in terms of a biblical term that created this realm, and they created this realm for purposes we believe actually of soul evolution, but think about it, if we have good and bad plus and minus, every moment is our moment of choice, so how do we make the right choices every moment, this is something that we are constantly bombarded with, so the concept behind Ra is really bringing the energy of life to this reality, getting this reality going, getting it started, we believe there's myriads of universes, this is just one of them, and that's why you end up with Noot, who is really the body of the lady of all the stars coming together, you find something similar in the Mayans, where they have Exocal Nook, this is Lady Cloth Weaver, where the Mayans believed every star is positioned according to a higher or a code structure of life, there's nothing random, nothing at all, in fact scientists are starting to say even chaos theory seems to be non-completely random.

**J J:** So much of what we're sharing is we shared with Dr. Otto Schoben, who was the great Egyptologist who made discoveries in the Valley of the Kings, and what is important here Michael is the fact that we're working now with the para-physical use of sound, we're working with documented events of sound structures inside the Great Pyramid chambers that connect with the circulatory processes of our mind, our circulatory system, and as I brought with me for a discussion

we're working also with the concept of the giants, our work was also in Egyptology and African studies where I taught years ago, East African studies, and I'm showing a picture now of one of the large footprints found in the south area of South Africa, where a large beam upwards of 28 feet as calculated by the size of the footprint did exist when the Earth had a different atmosphere, people grew higher, or perhaps this is a visitor from some other realm. Anyway this was shared privately with several noted geologists and anthropologists who agreed with us that there are large footprints in various parts of Africa, and the southeast Asia that they cannot account for. And probably South America as well. This follows a map of information that I published in a book called *The Keys of Enoch* in 1973. And in this book there is a map in key 215 that actually shows areas of the world pointing to here where there were updates of human civilization.

**DESIREE:** So one of the places that it points to, and this is way back in 73 that Dr. Jack came out with this, it points right through the Isle of Flores, which is where they found the little hobbits. And yes it's also in the introduction book as well. In 2003. Yes so in 2003 they found this hobbit intelligence that used to live on the Isle of Flores.

So there's a line going straight down from there. Also this large footprint is very close to the line going straight down from the Great Pyramid.

**J J:** So this is the only book that has the actual grid pattern of what we will call cosmic intelligence is teaching us where side by side the giants we have the hobbits, we have the small people. And we are being prepared right now to accept a wide variety of life forms that are coming into the arena of the human experience. And this will be seen in a documentary perhaps you're aware of called extraterrestrial species almanac.

**DESIREE:** So there's a book by Craig Campobasso about this, but now with early 2024 they expect to have this in a film. And what's exciting about the film is it actually shows some of these life forms extraterrestrial forms in kind of real images.

**J J:** And this is based upon the MUFON research, which is very sterling of top scientists and geologists working behind the scenes such as ourselves.

So what we're saying to the public audience is we have to fasten our

seat belts. It's not a question of recognizing non-human intelligence, but recognizing a whole spectrum of intelligence that our ancestors in Greece and Rome the Middle East recognize. This is a no big thing. When you think of Homer, when you think of Herodotus, when you think of Virgil, when you think of Tassa, to some of the greatest minds accepted the fact that we were surrounded by arena of godlike entities, life forms. Of course, what is important here is the story of the prophets and the apostles suggesting that above all of this is a much higher realm of the ultra-terrestrial that allow these other realms to exist. But ultimately they will be evaluated and we in turn will also be reconnected with this great re-evaluation of how we've used our time in space correctly or incorrectly.

**DR. SALLA:** So the gods, the Siberian gods, the Egyptian gods, so you would agree then that they walked among humanity, that they were seen, they were much larger, they were in some cases giants. So this raises the question, people associate giants with a genetic creation by the gods, by the Anunnaki, and the giants, I guess if we're talking about the gigi that they were created for mining originally and then eventually had other purposes. But were the giants one of the key functions, were these giants created as avatar bodies for ET consciousness to come in? So the ETs would be like on a stasis chamber on their spacecraft in space because in their natural body the Earth's atmosphere would be inhospitable for some of the gods. We're talking about Osiris, we're talking about Horosoph, we're talking about Enki or Enlil, so they created these giant avatar bodies so that the gods would come in and use that avatar for a period of time, but that would account for say that 28-foot tall giant that you showed the footprint of.

**J J:** Well it is clear that our atmosphere was much different millions of years ago and even a quarter of a million years ago.

So again the depictions by some of the Greek artists and for that matter the artists from India and China also reflect in their gigantic arganjuna statues of the Buddha figures or what we see in Egypt, these massive human-like figures all suggesting we are just newcomers to the scene of evolution in that our ability frankly is to grow up and to evaluate where we are in relationship to the other thought leaders, the other movers of change within the greater

cosmos.
**DESIREE:** Right, I think there's a multiplicity of reality here. I definitely feel that in many cases they needed the bodies to come into to bring their consciousness into. If you go back to the Bible Genesis chapter 6 it says the Benne Elohim which are the sons of God, that means they're not the highest levels of reality, but the next level. We call this a S-O-N-Sun universe because this is really it's a universe of free will of these beings who decide to let's try to do something.
**J J:** A many sequence star systems is astronomers referred to it. As you see here in this depiction right here of the larger star God and the three figures who could easily be wise men or teachers, but then in the midst of this you have the the figure of the star system specifically indicating that we are one of many worlds.
**DESIREE:** Right, and so if you go back again to Genesis 6 so supposedly the sons of God had relations with the daughters of man are like us and they created between the two these giants, but the giants in the long run as were told actually caused havoc on the Earth because it's kind of like too many elephants in a small area they started destroying the Earth and there seems to be those and this maybe some of your audience doesn't want to listen to this, but there seems to be those who are supervising even beyond those beings, who according to the ancient Book of Enoch actually said hey, “We've got to get down there and clean this up temporarily” and they then created the flood that took us back to our original genetic code.
**J J:** That's chapter seven of the ancient *Book of Enoch and the Ethiopian*.
So what we're saying to you is there's a Bible within a Bible a Bible of mathematical symbols and musical vibratory codes. When you correctly elevate our consciousness to actually be a mental and spiritual communication and now it is our time to become more of a participatory audience of humanity. From the standpoint of orthotics see we have to evaluate and discern who we will be connected with in the should we see the post-disclosure moment at the same time from the standpoint of traditional history and anthropology this has always been a reality our ancestors going all the way back 20,000, 30,000 years ago even to the recent findings in eastern Turkey Gobekli Tepe suggest that we were one humanity amongst the gods the giants of

the universe even the fallen Nephilim fallen angels or instructors were even thought of as the large erudite watchers who took the wrong course.

**DESIREE:** And I love your concept of the avatar body because I do think that that's true in a certain sense these beings are so superior even though we're not that inferior either I want to qualify that, but they're so superior that they can just manifest into physical bodies, but not be entirely and I think that's the key not be entirely locked into that physical body they can just make it one of their many manifestations.

**J J:** we've illustrated this in a book called *The Overself Awakening*. In that book we show of the avatar that is psychically a potential projection of our future where we began to grasp those realities that were researched at Stanford Research Institute back in the 70s and 80s in our book called *Mind Dynamics and Space and Time* we go into a lot of research connecting mind over matter the abilities of remote viewing remote sensing remote healing all of these were considered to be the powers of the higher spiritual endowments that we would eventually have that would be returned to us when we were ready to join the family of nations.

**DR. SALLA:** Well I know one of the things that comes up again and again especially in a lot of evangelical Christian research on the giants is that the giants are the progeny of the fallen angels, they're evil the Old Testament describes these kind of pogroms against giants say giants start appearing in the modern age, that they're evil and we should just like obliterate them some. I find that to be a very simplistic view of the giants in ancient history.

I think giants probably like us you have the positive the very loving positive benevolent ones and then you also have the kind of ballistic ones that that did you know prey on people. So yes do you want to elaborate and maybe clarify with giants is there a kind of moral ethical spectrum of motivations that we need to really factor in as you know in terms of understanding then historically and in terms of understanding their sudden reappearance in modern society.

**DESIREE:** Well there's no doubt that in the bible it does say that they had relations the sons of god had in relations with the daughters of man and then created these giants, but I also want to say right now when you look at extraterrestrial data that there's the tall whites now

the tall whites they may not be 23 feet tall, but they're at least eight feet tall or nine feet tall I would still call that from my perspective a giant so there's different species out there that aren't just limited to this planet and I think we have to start thinking these wider terms as well so yes not all giants are bad I mean you always have the jolly green giant I always hold that one.

**J J:** But think of the giants of the mind like Einstein. Think of the people movers who are considered to be the great minds of the universe. In our book *Overself Awakening* we have had European illustrators show graphically and pictographically how the Coptic traditions and those of the Near East which would be in sync with the biblical traditions though we call the Copelistic gramistical show how we graduate from different levels of language to understand the mothering aspect of the universe and through this also the compassionate Christ.

**DESIREE:** Right, we see ourselves actually is this little being in the bottom and we're actually much bigger than that when you talk about consciousness and I think that's the same for the giants that they can manifest this is the as sanskrits talked about this too you could project into different realities you can stay where you are and be there, but you can also project your consciousness into other manifestations that people talk about walk-ins or something like that, but does that mean that that original source of that person is gone from where they were we would say no that consciousness is present and then they simply for a short time depending on how short or how long spend time in a physical form and that's really I think how it works that we ourselves are not even limited to this form.

**J J:** Right and we have to put this in the larger context of why the governments have been reluctant to put all the cards on the table regarding the extraterrestrial presence indeed there are some poacher groups that have taken advantage of human realities there are some situations in history that are quite troubling which suggests that certain leaders were influenced by those who did psychic channeling connected with sources of mischief and destruction so and that's why we've been quarantined for all this time we have to understand that in our traditions of knowing the scriptures and working with the of legitimate scholars of these great and awesome traditions that there

was a way of filtering knowledge and using divine language as a protective screen to judge as where the fallen emissaries are fallen angels this is the work of the book of Psalms clearly King David tells us in Psalm 82 that we are to understand the god systems, but understand the principle of the most supreme one in the midst of the gods so we come up with this shall we say very complex cosmology of many gods many realities and you can understand why the government authorities for many years have been reluctant to talk about this because it has psychological and theological ramifications.
**DESIREE:** I mean it would be easy if it was just one spaceship that occasionally maybe dropped in and said hello to a few government leaders or a few people from here and there, but technically there's myriads of agendas of extraterrestrial the book *Extraterrestrial Species Almanac* which Dr. Jack mentioned in terms of the star Arcturus although we also talk about the Pleiades and Orion quite often basically it has 80 different species and so it's there's myriads and each one has their own agendas and many of them are local they have the same consciousness fields that we have they have, the good guys and the bad guys, maybe only 20 or 10 or 10 percent bad that's up to you.
**J J:** So we're telling our audience to look at the research of Lynn Buchanan who's with the intelligence community or look at the research of our late colleague from New York who was involved with the genetic experiments. Oh, Barnacles yes. All of these are very gifted researchers and we have worked behind the scenes with achievements of various tribes in fact I'm holding up for the audience to see a teaching belt from the Shavanti peoples to Brazil we are honorary chiefs because we work with them and they tell us that there is a variety of competitive life forms in the universe and this is the time for the star nation people to return because of the mischief makers.
**DR. SALLA:** Yes, well one of the people that I got to work with closely from 2016 and 2017 was William Tompkins and he really put out incredible information about his direct participation in this program involving aerospace corporations that he was working at being helped by these human looking extraterrestrials in designing space carriers for the US Navy and I was given the diaries of William Tomkins and I was pleasantly surprised to see that in the late 1970s I think it was the

78 79 and 80 that he met with both of you for I think with Dr. Hurtak, JJ for about 10 times so what did you get to talk with Bill Tompkins about and did it have something to do with his firsthand experiences with these human looking extraterrestrials working inside of these aerospace companies.

**J J:** Well first of all thank you for pointing his picture on the screen he was a great patriot a man we highly recognize as a true researcher. He was interested in the evidence that I brought out in *The Keys of Enoch* again all of you are not acquainted with this should know that the 1973 I was the first to release the pictures of the pyramids on Mars and this is due to my remote viewing research with other colleagues like Harold Sherman.

These massive pyramidal structures are 10 to 100 times larger than the pyramids in Egypt and Bill Tompkins was interested in my knowledge of all planetary civilizations and was there a connection between Egypt and the pyramids and Mars and I said yes the Arabic name for Giza Cairo is called al-Kahiroch means the spacious one or Mars and Arabic cosmology in fact most of the star systems we use and clean the three stars and the Baltic and Arabic names and so we are indebted to the wise and erudite Arab historians and astronomers. To cut to the chase Bill was interested in the quality of intelligence that he knew I was in touch with that looked highly at the Abrahamic tradition and the survival of the western world as we know it.

**DESIREE:** Right, so I also want to say that it's important to realize that the Navy really was one of the first we'll say branches of our military that was totally aware of extraterrestrial intelligence so this does fall in line with things that we had heard from Bill Tompkins, as well that the Navy was working with these forms because I grew up in Florida and right in the area of Miami and that's the point of the Bermuda Triangle and I saw things as a young age as how I got more and more involved with my husband, but that there's definitely, clearly bases there.

And a friend that went out into the water off the she was a marine biologist and they had encounters and she told me about that as well and then they're of course in California off the coast of California as well and other places so the Navy has been aware of this for a long, long time we had another friend who was an admiral I won't mention this last name, but he was totally aware of all of that so that was part

of what Bill was talking about in terms of the advancement of the Navy I just want to bring up as well and then we're talking about the Egypt so much.
But actually there was someone in the Israeli space program called Haim Eshed I'm not sure if you're familiar with him I'm sure you are though and he said also that and he's retired now, but he was very, very high up I think it was even a general and he said that clearly we are in touch with extraterrestrial intelligence I'm talking about governments the US government the Israeli government probably other governments as well the Russians and others and that we are actually having joint programs with them and even going to Mars with them.
So it's not something that I'm saying, but I think it confirms a lot of the talk that Bill Tompkins had talked about how they had been in cahoots with these government leaders as well.
**J J:** So yes not only did we have the opportunity as consultants to understand these unbelievable landforms that could suggest previous civilization, but later within context of several computer forums we published a book called *The Face on Mars* evidence of a lost Martian civilization.
The catchy title that my co-writer came up with and in this book we have pictures from Vince DiPietro and his colleagues at the Goddard facility showing that there is enough evidence to suggest on non-natural landforms we're created by those forms of intelligence from another solar system or galaxy that stopped off long enough in their Lamborghini to take evidence of life or this we will call the remains of life that did exist on Mars that were destroyed because of the change of the atmosphere.
**DESIREE:** So here's another shot from Mars actually that shows what they call the Inca city.
**J J:** So flying above South America looking down the ruins would suggest Inca civilization or what we call civilization akin to the earlier indigenous scholars and scientists that were there in South America.
**DESIREE:** But, of course, that picture was from Mars and I have to say we worked extensively with a woman named Elizabeth Clark, that she's from South Africa and she had contact when she was a younger person with someone from Alpha Centauri and Proxima Centauri, but

can I just say really quickly that she mentioned that her civilization that she was in touch with had originally been on Venus, Earth and Mars.
**DR. SALLA:** Hold on a little bit. I want to talk about Elizabeth
Well I just wanted to kind of back up a little bit to go to Professor General Haim Eshed because he said that the Galactic Federation was in touch with the Trump administration and told President Trump who apparently was wanting to disclose extraterrestrials living amongst us that humanity wasn't ready yet, that our technological our technology was not yet sufficiently advanced enough for us to be able to handle the news of extraterrestrial life.
So do you want to elaborate on what Professor Eshed had to say about the Galactic Federation and us being ready for an announcement.
**DESIREE:** If you go back to Bill Tompkins, I mean I think almost every president has had some inkling about contact with aliens. Supposedly Kennedy of course did and others as well maybe Carter and maybe Clinton didn't have the full story. Trump seems to have had more. Who knows, I mean that's really hard to say, but in terms of we do feel that there is this program.
And that's what David Grush was saying in June.
**J J:** I wrote it my book in 1973 those actual words that you quote are in the book in three different locations, the Galactic Federation, so we are being psychologically sociologically and theologically prepared to understand what the prophets in the Old Testament in the Apostles of the New Testament. If you read it very carefully Paul speaks to the scholars on Mars. He says in a paraphrase represents something much greater than the gods of the Greek poets, a bleak reference to the fact that there was this relationship to the civilization on Mars and the visitations from these other light forms, but the god the true god, the most-high supreme god of the Hebrew tradition. Is this god that we should pay attention to because we are going to understand and the reconstruction of human planetary history that we've been here as a human species much longer. There have been cycles where great civilizations have disappeared due to the misuse of technology or climate change and we're in the in the outskirts of something tremendous that requires a spiritual psychology of hope and understanding of why we have prophets and why we have those to go

to higher levels of cosmology.
**DESIREE:** And we also feel actually we did not evolve from the apes of the Earth. We feel that we as an Adamic species exist on other planets. This is what Elizabeth Klarer also had seen and many others have tuned into and *The Keys of Enoch* actually when Dr. Jack had his experience which was a type of merkaba experience not an extraterrestrial, a merkaba experience.
You can qualify that as a spiritual experience, a higher manifestation of light, right, so he saw things past, present and future on this planet and he saw things in higher realms and other dimensions, but bottom line he was told that 64 areas of science were going to literally get more advanced so that we were prepared for contact.
So I think that's exactly what the extraterrestrials are saying as well, but funny enough when you really look at the work of Haim Eshed one of the things he said is the extraterrestrials themselves are trying to figure out more about the universe and I would go back to our colleague Linda Moulton Howe who says some of the extraterrestrials really are admiring us even though we're not flying in spacecraft, but we have this deeper awareness this deeper soul connection to a higher consciousness plane that they are not able to do.
So there's a lot of intricacies going on as to who we are in the universe and why we're now getting updated so to speak in all these areas of science so we can be prepared for contact.
**J J:** And Michael this is your work to open up the doors for much larger discussion this is not a simple situation of big statues versus small humans higher knowledge versus limited historic knowledge. This is a preparation for dialogue, a conversation that I believe will take humankind into spacekind, humans into what I will call a global citizenship that we have to have the theology, the cosmology, the psychology, that is of the light, is of the divine and that is the missing part of the scientific paradigms that we've seen with few exceptions. Until recent times we've used only one side of the brain which is the left analytical rather than the right multidimensional. This is the importance of what I will call the feminine side of the holy spirit or the Shekhinah to use the poetic language of how we must open the doors to perception a much later level with the compassion of the heart.
**DESIREE:** And also it's some of this information like findings and

discoveries whether it's AI or whether it's archaeological finds going back like 150,000 years in San Diego seeing the mammoth bones placed uniquely together for a position, but all of these situations are leading us to a greater awareness of who we are.
And we feel that information is coming from other levels of intelligence we spend time in Silicon Valley. We know many scientists that actually kind of in their dreams get this information and they go and make it. So it's not that unique to have people really download information that can be used to help humanity or can be used to advance humanity or even destroying humanity depending on how they use it.
**J J:** So do we focus on giants of the Earth or do we focus on giants of the mind and the giants of the mind are both spiritual as well as scientifically aligned with the higher divine source.
**DR. SALLA:** Well this is where your 1973 book *The Keys of Enoch* comes in I mean you identify 64 keys and I mean that seems to be related to this exercise of getting ready for this kind of open galactic contact that Professor Eshed said that the galactic federation said we're not quite ready yet. So as a species in terms of those 64 keys. When will we be ready do you think it's very close you think it's a few years ahead what do you think?
**J J:** Let's go back one exhibit on the screen of the cover of my book, the cover of *The Introduction to the Keys* of the end of the screen you'll see there if you look very carefully an ancient biblical scroll, but then there is the pyramid and then there is a color capstone in color, a bluish violet color within the flames come about as this capstone goes around the Earth or is over the Earth this I had a special artist from Europe illustrate this according to what I saw my experience and we know in 2018 actually right over the Pentagon in Washington D.C. a bluish large megaform in the shape of a pyramid appeared, momentarily. It was filmed by three different cameras illustrated by Hyman Wasan and others and we saw this over Russia in yes 2009, so over the Kremlin and over the Pentagon this form has appeared this is very important because this is the first picture in my book *The keys* of me and I've when the capstone appears over the Earth over a certain areas of the Earth where we are being watched and prepared to graduate.
**DESIREE:** Yes, so actually some of you maybe had seen that

spinning kind of triangle over the pentagon from 2018 it was done at about four in the morning at first I thought nothing of it, but then Hyman Wasan actually did extra research to see who filmed it, who saw it and he found yes four people in total actually the main film that you see is two people in a car and they're throwing the camera practically back and forth to try to shoot this.
It's a fabulous shot and it really does match the something nine years earlier over the Kremlin. So we do feel more and more forms of extraterrestrial intelligence are warning us.
As you know they've neutralized nuclear missiles in our silos and this is a clear sign that they do not want us to use any nuclear technologies.
**J J:** So this is the return of the angels in biblical language the bana Elohim? Is this the coming of the seraphim? Is this the coming of the angelic ones that the apostle Paul refers to or is this something that is a completely different category.
Again we're not saying that we are the experts we're just saying that we are scientists. We have documented behind the scenes. We have worked with some of the astronauts. We've worked with some of the more gifted oriental scholars and Near Eastern scholars who tell us it's clear that the scenarios of the past repeat themselves.
**DESIREE:** But Dr. Jack told actually the timing first of all is not known in this consciousness field because if it was then more and more people would be prepared on different levels even like negative preparation, but we're also being watched and cared for.
Actually if you've seen in Netflix there's a new series called *Encounters* which is sponsored by Steven's Spielberg and they do the evidence over Fukushima where there is this kind of long disc that was seen and really the ET's have been helping us. I even think the whitewater off of San Diego and the tiktah was probably trying to neutralize some of the buildup of energy that then relates over to the San Andrea's fault line so they're trying to help us they're trying to keep us together as long as possible and to keep this going.
Dr. Jack though however in that book, but actually in the larger book talks about how our Sun is a variable star he used that quote this is in 1973 and then about 2003 NASA came out with the exact same quote from one of the scientists our Sun is a variable star.

What does that mean? Well we're going thru a solar maximum cycle which happens every eleven years supposedly. Our Sun's lives could be knocked out. We could be thrown into darkness yes, but anyway it's so the next solar max was supposed to be 2025.
Now because it's a variable star they're looking to see maybe it's going to max in 2024. So that's a possibility and the whole variability also means how strong the sun cycle goes and how strong are these solar flares and in some cases in 2012 there was that big thing in 2012 and the end of the world.
Well we missed a Carrington event by nine days. So I think certain things are going on by extraterrestrial intelligence by the Galactic Federation if one wants to say and even we would say higher levels of intelligence to protect and watch. So at some point we will be ready and it probably will be in, we'll say, my lifetime.
**J J:** So we may, I must say, we will almost fasten our seat belts, but we might all must have the hope and the vision of a better tomorrow where this said the house that many mansions is opening its doors and we are being given an opportunity to go up the ladder of Jacob and see the angels ascending and descending or we will call them cosmic others, cosmic engineers some of which bring us gifts, but also this requires a sense of psychological and sociological maturity that we can use these gifts.
We can use this inside stay hoping the human race come together and also understand the portal of ascension in scientific terms, but also in psychological terms meaning that the whole human race goes into a much different relationship with the galactic councils of wisdom.
**DESIREE:** And we can even say fifth, sixth, seventh, eighth, even twelfth dimensional realities.
**J J:** So if you can understand I with all of this information why some of the so-called government experts are a bit careful in wanting to say too much because there is much and at the same time the human heart cries out for truth, for wisdom, for compassion.
So as we enlarge this picture on the drawing board of life we began to see and understand the importance of those great mystical thinkers of the Coptic Christians, the mystics of the near east come down to the present day and include the knowledge of the house of many mansions.

**DR. SALLA:** Well we know that there have been a number of people that have spoken about extraterrestrials living amongst us whether they were the great minds whether they were great teachers or as in the case of William Tompkins just helping designers come up with architectural models for future space carriers.
So one of the high level officials that has talked about this is the former Russian president and former prime minister Dimitri Medvedev who said I think it was around 2010 he said that extraterrestrials were living amongst us and that that there was an organization kind of like in the men in black movies that was set up to monitor extraterrestrials living amongst us to make sure that they didn't reveal themselves.
So does this mean at some point they just kind of announced that there are all these extraterrestrials living amongst us. So how accurate is this information?
**DESIREE:** Well we do feel there are some we had a good friend named Hans Peterson he was with the Danish Air Force and he said the same. He knew actually George Adamski who I never took very seriously until I heard what Hans had to say about him. He said this exact same thing this is way back, what in the 60s even maybe back to the 50s in some cases that there were extraterrestrials that were living amongst us and they just worked normally and they seemed to just blend in.
I know we worked with a friend of ours Phyllis Schlemmer and one time actually a being revealed himself to her and he was lifted up his pants leg and his leg was completely blue.
**J J:** So it was like a blue race person. The face was normal, but the body was blue so again we go back to the personifications when finds in ancient far eastern as well as new eastern depictions about them, blue race people.
They can change their facial form or color who walk amongst us. So going back to the gentleman that you have on the screen we can't answer specifically to what is it making assertions for, but having translated the papers of Russian cosmologists and having talked in Russia years ago I can assure you that there's a consensus behind the scenes that was always kept between Russians, Americans and for that matter Japanese and others on the highest levels.
**DESIREE:** But I just want to say one other incident that a very good

friend of ours and we trust her whole heartily she was working in Texas I'll just go that far and she went into the ladies room. There was a new woman who had come into their company and she just happened to see. She looked in the mirror because when you walk into the ladies room most women look at the mirror and this woman had a Reptilian face and all of a sudden it changed and she like freaked out. She ran out. The other lady ran out and never came back to work. She quit her job.

**J J:** The one with the reptilian face, how would you describe this stuff to the audience. Well I'm just saying what does that mean?

**DESIREE:** Well it means they look like a reptile. So the bottom line is I think many of them are living amongst us and there's some that can't because their whole consciousness field is so different from us, but basically we're also alien intelligence as I mentioned we're an Adamic species you're going to find us. I think that's the oddest thing from when you talk about contact and reports of extraterrestrials that you find intelligence that look like us. That's because we just simply got here we'll say 36,000 maybe even 200,000 years ago lived through various cycles and changes kept coming back.

We like this planet I think who said “Good planets are hard to find.” Now there was a book named after that and decided to stay here even though the consciousness field is very chaotic and dualistic.

**J J:** Well I would simply emphasize what that is by saying we are created in the divine image. We're not happenstance creations. That was conveyed to me in my mystical experience, that we were created into the image, but there's other images as well like the bird people that took on a different persona even though in our scriptures in the book of these equals chapter one we have a reference of the merkaba, the vehicle of light and you have the four figures the human face that looks angelic. We have the face of a lion. We have the face of the sacred cow, but also we have the face of an eagle. So there's the bird face man mentioned even in the scriptures.

So those who think they know the scriptures should read them in the original Hebrew, Aramaic or Greek and they will understand that there is a plurality of life forms that are mentioned, but in the graduation story we begin to realize that we have a uniqueness of recognizing our limitations and through grace and through meditation prayer we turn to

the divine source to be uplifted and not fall victim to those not in divine image or reflective of the divine love that holds the cosmic law in its great and glorious place or universal teaching

**DESIREE:** So what there is is this consciousness that is supreme, a universal mind one could say, and then there's all these various experimental realities we being in one of them and in those experimental realities you find our manifestation as well even though we have connections to the higher universal life and you find other realms of intelligence.

**J J:** So the bird man is an architype that we have found throughout the world from work Easter Island to work with the Xavantes in South America to work with the Egyptian writers and teachers we see here on the screen and even our late calling Andre Puharich was very high with the military intelligence that he had a momentary experience of seeing a bird-like figure appear.

So this is something that should not be dismissed as pure mythological projection there's the historical reality of whole civilizations being built by great minds that recognize we're just one of many species forms and the universe has a great biological diversity, but in this we have certain steering mechanisms and we have certain prerogatives of being able to go upwards with the ladder of life or the musical spectrum of knowledge and sound rather than downward into chaos confusion and death.

So this is the turning point, I believe, Michael we're at a turning point with the disclosure conferences in Washington. David Grush and others like him have come forth and I believe we will be there on the front lines putting our information out from other areas of other governments, other social realities of saying “Humanity wake up. This is your time to avoid death and destruction. Do not follow those forces of evil and cunning behind the scenes that want us to go into convulsions of death, but go with those who are wisdom teachers of light divine purpose. We will call the Christ message of loving your fellow men.

**DESIREE:** And just to recap just a little bit just because the cosmology I think we've been talking about is fairly extensive so for old generations, we'll say the civilization of Mu and civilization of Atlantis we've had contact with those who are like the Greek gods or those of

the Anunnaki, but in the last six thousand year cycle from the flood onwards we've been somewhat protected and we've been kind of given our own space, although we'll say like the buddhas and the bodhisattvas and the Christ figures and the prophets and those of you know we'll say Quetzalcoatl have come in different places to try to upgrade the consciousness of humanity, but at a certain point in that point which we feel is very soon, there will be the day of graduation where we get contact once again with those who are around us in the local life space, the extraterrestrial species the ultra-terrestrial species and even the extra celestial species.

**J J:** even the former president of Mexico who was José López Portillo who personally back in the 70s gave me his book Quetzalcoatl: A myth, the feathered serpent and he said that the higher intelligence is coming back and then the theology is for real, but it should be understood on a much higher level.

He was the one who allowed the first major congresses on parapsychology to take place and the first congress on ufology which he had in aqua purple Mexico and his wife worked very closely actually with Uri Geller so we know on higher levels in Latin America there is a type of understanding profound, understanding that you do not see in the rationalizations of some of the teachers who pontificate only in terms of three-dimensional theology, that there is multi-dimensional theology in the realm of the holy spirit or we will call the divine dwelling that allows us to see as plan of creation allowing very unique forms of diversity that ultimately are reconstituted, repurified and reorganized.

**DESIREE:** And just to say one more thing about that picture of the birdman that you are showing actually what's interesting is not necessarily the birdman, but oftentimes they're carrying the little I think Graham Hancock calls it the man bag or the boy's mail bag and basically you'll find that actually in places like in Ecuador and you find it also in pre-Aztec culture that same bag. So what's in the bag? That's the big question. Is it the wisdom and the knowledge that's coming forth now that's bringing us closer to AI and closer to extraterrestrial?

**J J:** Or is it bringing us closer to the I Am rather than the AI?

**DR. SALLA:** So well in terms of where we are at now? I mean in the United States there is definitely a big push for more transparency on

non-human intelligence, UFOs. The rest of the world is pretty slow apart from places like maybe Mexico and Peru on these issues. So do you feel that what we are witnessing in the United States in terms of the intelligence community, Congress wanting to kind of bring out this information that they know that we are at this kind of like transition from a kind of insular society, not knowing our history, not knowing about galactic civilizations to one where all of a sudden we're going to learn about the history, we're going to learn about the genetic engineering, the role of the gods and these are kind of like very advanced extraterrestrial organizations like the Galactic Federation and others that are here now wanting to introduce themselves and help shepherd us or mentor us into a galactic age?

**J J:** That is a very profound question what needed to be added to your question is the role of corporate entities or corporate elites? That's where I believe the real information sources need to be brought forth in conjunction with new congressional hearings as well as the conversation with those in the military that have as we're authentic backgrounds and have waited patiently for many decades to put the right cards on the table. What I mean by the right cards that will not panic people, but will give people an idea that we are here as part of a greater experiment that we have of the lessons to learn.

That those lessons come through freedom come to association with both sides of the brain, the scientific, the analytical left and the spiritual, the metaphysical, the multimential right and I emphasize that we must be more right orientated with the mind to understand spiritual pictures, there is a spiritual information and also what we'll call the whole outpouring of the divine awakening.

This again is not to overlook some critical decisions that we must make as to who is on first base, who is holding back information, who wants us to play out additional wars ad nauseum and who wants us to have victory over the warriors of the past paradigm.

So all of this suggests a maturity of spirit, a maturity of conscience, an open-endedness of the heart. I believe this will come through a new type of leadership, a futurist sociologist environmentalist. Those who want to take the high path as opposed to those who want to be involved in the trenches of the same old politics of saying this group is on this base and that group was on that base. We need to have those

to see the big picture behind the big picture the ecumenical blueprint of humanity at large being drawn together.
**DESIREE:** Dr. Jack is right when he says the corporate interest because it does seem and like David Grush talks about the legacy information. I mean it's been around for so long and according to many researchers of course, we'll say, UFO spaceships that the government is holding the data was given to corporate interest to develop and so it takes it away from the government having to make a statement about any of this stuff and so that puts it back to, you can't push corporations.
**J J:** We really need a new sociology we need people to see the advantages of having this knowledge and the opportunity that we have energy alternatives that work.
We've been involved in high-level research over the years with those in the field of hydrogen. We've been also working with those who are in what is called vial rock where you would take electrical systems and rejuvenate dying pearl so we have the mechanisms of rebirth reorganization a quickening of life and a reconnection with divine source and this is something that must build upon rather than separate one part of the brain from the other because of what I will call or lower ends of mythology and theology that have been misunderstood.
We have to grow up and this is the whole work ahead of all of us exopolitics yes, but also exosociology exomedicine in other worlds exotheology according to or the great professor Shandell at Harvard university who many years ago said we can accept the fact that there are other civilizations and so it's really within the scriptures themselves that people would take time to read them in the original languages.
So we're very optimistic in spite of the brutality and part of the wars and those who want wars that the majority of people will respond favorably to information that's properly presented by the great scientists and the great spiritual thinkers working together.
**DESIREE:** And we do feel that president Carter actually did see a UFO. In fact our friend Andrija Puharich had a face-to-face meeting with them before he was president and he detailed what he saw and of course he was actually a physicist so he knew what he was looking at he wasn't some guy who was from nowhere or just a lawyer.

So also Ronald Reagan actually when he was governor he also saw UFO and he was flying from northern California to southern California and he went to a fundraising party and Charlie McLean was there Lucille Ball was there he talked about his event what he saw and of our surely he's going yes, yes, yes and Lucy Ball's going like you're crazy, but I mean basically they've shown themselves to government people key people around the world mostly these were prior to even being president. You wonder do they know the future? I think they do.
**J J:** There's one other significant area my colleague doctor Ted peters theologian at graduate school UC Berkeley.
So the question here over than 20 years ago to California's theologians do they accept the fact that there is a divine source of higher intelligence with this conflict with theology and the majority said no they would understand that there's a higher end to the information curve that we're entering right now so again from the standpoint of a higher more magnificent understanding of the philosophy of life the theology of eternity the experience of evolution seeing a spiritual maturity and evolution, not the Darwinistic evolution the understanding of new Egyptology and also the resources from Latin America and particularly the Mayan civilization.
We know that there are great and awesome civilizations that speak volumes that what we're about to understand that we were here much longer as a human race great civilizations came and went because of the imbalance of information and that's the whole purpose of our conversation. We must balance the left and the right side of the brain. We must balance the heart with the objective reality that we face we must become way showers of a higher path.
**DESIREE:** But I have to say I don't want to try this on too much longer, but we are very important I think in the cosmic scheme of things and there was an event in Brazil called Varginha. It was Roger Lier who went down there and talked to the physicians who had for a very short time these alien bodies that they were trying to save they were odd bodies they stanked they were more like grayish green and red eyes they had little protuberances on their heads, but they talked telepathically and they were trying to tell the doctor how to help them and things like that, but one of the things that roger reported was the fact that the alien said it's very sad that you don't know who you are

you human do not know who you are so and that now has been carried over to James Fox program on that while we were talking to him about it so they know that we are a superior species we have a lot more capability.
**J J:** But we have gone asleep. We've gone to deep sleep. Well we've been dumbed down. We do not understand the great gifts that await us when we began to connect the dots and see the celestial spheres known by the ancients and particularly in the just to see light.
**DR. SALLA:** So I just wanted to ask one more question before we kind of start wrapping it up and that is there's we've you spoke about The Book of Enoch the historic Book of Enoch, but there's also the book of the secrets of Enoch also called the Slavonic Enoch, Enoch two that talks about this order of Melchizedek and that struck me as kind of pretty interesting because it said that Enoch the biblical Enoch was dictated 350 books filled with knowledge by the ancient of days and by the higher angels and that his job was to protect that knowledge and to one day or to disseminate it for the survivors of the great floods. So what do you know about this Slavonic book of secrets of Enoch?
**J J:** Well I've translated from the Greek in the Slavonic and the Ethiopian topic these are the first and second Enoch books and languages generally associated with them that the second Book of Enoch is much shorter, but as you said uses certain terminology which I think is very relevant to this conversation such as the Aramaic most ancient of days most high god these terms are very important and we find that in our work worldwide people respond favorably to the teaching of Enoch of the other worlds and the mystery of science connected with the higher worlds and so at the Ethiopian church the Coptic Church considered these books biblical in the sense that they were inspired. The Roman church, the Protestant church simply said that these were mythological reconstitutions projected history and had no relevance, but we disagree we feel that the Anakian teaching of which *The Keys of Enoch* are reflective represent a higher realm of teaching a multi-dimensional cosmology, a cosmology of consciousness that we are sons and daughters of god awakening to our plan to participate in the galactic family.
**DESIREE:** And both books of Enoch the ancient ones that is talk

about the cosmology of the heavens around us and the various types of we'll say god small g that we are being confronted with at all times. He mentioned the Melchizedek and I just want to say in relationship to what we call ultra-terrestrial forms of intelligence even the bible said he was he was here and he met Abraham.

**J J:** But he was following us some other lists which means he was the eternal being who came and blessed Abraham and that's the tradition of western civilization the three major religions of Abraham have were this greater capacity to understand the message of milk his *adak* who blesses Abraham and also explains that he is offspring into the future will inherit the stars so I believe we're at that stage and Michael thank you for bringing this into this discussion may the most I got out Elion or in the Aramaic *atikyo* means bless us manifest great joy amongst all branches of humanity and bring us and quicken us into the cosmic creation story as we see a new beginning a new genesis on full before our eyes.

**DR. SALLA:** Well thank you very much for for being on this show I think you represent a body of knowledge that has been suppressed and kept from the mainstream for many, many decades and I know you've been involved both of you JJ and Desiree since the 1973 in JJ's case in putting out this information so people where do they go if they want to buy some of these books or learn more about what you're doing future events and so forth.

**DESIREE:** Right, so our website is keysofenoch.org if you want a science site it's futurehscience.org, but if you go to keysofenoch.org you can actually go to Dr. Jack’s commentaries in our shop for a Book of Enoch and Enoch two or second Enoch as well as our own book *The Book of Knowledge, The Keys of Enoch*.

**J J:** Some of our scientific papers are on the internet those with fMRI scientists and others have yet to be placed because they were written many years ago in very sensitive areas, but we work in more than 17 languages and more than 30 countries with the hope that we will see the dawning of the age of the divine or holy spirit in our hearts so we are blessed and we bless all of you out there as future cosmic citizens. We see if the light received the blessings of the heart and unity. Thank you Mike.

## TRANSCRIBER'S COMMENTARY

Most of the audience will not be old enough to remember when Dr. Hurtak's milestone classic hit the bookstores. At the age of 33 in 1973 he delivered this bombshell. Today he looks decades younger than expected. In Dr. Salla's recent Hall of Records webinar he comments on JJ's precocious status back in the early SRI years. JJ's cautious [NDA?] half answers to some questions here are more understandable after thinking on what Dr. Salla says:

"He [JJ] led a scientific expedition based on some of the data that the Ground Penetrating Radar that had been given to him …and he was allowed to talk about some of the things that he discovered like the temple of Osiris. And he described it as a giant labyrinth or a metropolis at least 15,000 years old with chambers that are larger than the largest cathedrals ever erected by modern man. Now he's not allowed to talk about this because JJ Hurtak is a contactee from 1973. He had contact and he was *read into the programs* and I think he has had to straddle this very uncomfortable position of like being read into some of the programs being used in some of these official programs and being allowed to talk a little bit about it, but not to talk too much about it otherwise he'll get into trouble…

Now JJ Hurtak I think is very unique because he has been operating since the 1970s and trying to kind of reveal a little bit about what's going on, but he's been kind of prevented from talking too much because the US intelligence community and the Deep State don't want too much of the truth being revealed."

So who would want to trade viewing Hall of Records holographic cylinders for whistleblower testimony?

## THE BOOK

As for Dr. Hurtak's milestone classic he says:

*"The Keys of Enoch® is* not a channeled teaching. This is *not* a book to be read from cover to cover, but a Library of Teachings.

It is written in a logo-symbolic code which operates as both pictograph and alphabet, so that each letter and word represents a visual scenario in a larger sequence of meaning. The language syntax, based on a multi-visionary logic rather than mere formal rationality, is therefore unique and requires direct experience for understanding. It is nonetheless available to everyone who seeks the deeper meaning with the mind's eye and the eye of the spirit, in the new dimension where the inter play of scientific and mystical union can be acknowledged as a transforming experience."

So who would walk to the deep end of the pool and jump in? It is probably safe to say that most of the people that buy the book are intimidated by the commitment implied by reading it. The language of the book can raise as many questions as it answers as per the gigantic glossary at the end. The book is getting expensive and now a short form Introduction only version helps in making the decision of whether to go whole hog. A look at the ten-page introduction [below] is a very big help which tells how the book came, how it is structured and how to use it. If money is no object, it will look pretty on the shelf.

So is a look at the website's to experience it's goal to support serious readers with a Catalog section full of other books, music, animated videos, offers of study, travel and other business amenities. Dr. Hurtak is a very busy man including expeditions. He does not seem to believe in electronic versions of his books, but experienced researchers who need searchable copy will find them scattered about on the web.

YHWH
The Book of Knowledge :
The Keys of Enoch

# The Book of Knowledge: The Keys to Enoch -- J. J. Hurtak

The book of knowledge: the keys of Enoch: A teaching given on seven levels to be read and visualized in preparation for the brotherhood of light, to be delivered for the quickening of the "People of Light"
By Dr. James “Jack” Hurtak

The Book of Knowledge: The Keys of Enoch is a para-physical "code-book". It is a text of higher consciousness experience which explains how the human race is connected with a more advanced higher evolutionary structure of universal intelligence. The linkage is made through 64 areas of future science, that defines the course of human development. The book covers a cosmology that is now being confirmed by a wide spectrum of independent scientific confirmations.
DR. J. J. HURTAK, Ph.D.. and Dr. DESIREE HURTAK, Ph.D., MS. Sc. are founders of The Academy For Future Science, an international non-governmental organization (NGO) that works to bring cooperation between science and spirituality through the positive use of consciousness. Dr. J.J. Hurtak and Dr. Desiree Hurtak are social scientists, archeologists and Futurists. Dr. J.J. Hurtak has a Ph.D. from the University of California and a second Ph.D., from the University of Minnesota.
Their graphic films, such as Merkabah and The Light Body for which they have won over 15 national and international awards. Their latest graphic film is called Gates of Light.
Drs. Hurtaks together have traveled throughout the world to investigate ancient cultures and to work closely with indigenous people, including the Zulu Shaman Credo Mutwa, about whom they recently produced an award winning documentary called *Voice of Africa*. They have also worked with the Xavante Indians (Brazil) and indigenous leaders in the Andes. They are respected archeologists having worked both in Mexico and Egypt and were part of the team that first uncovered the mysterious Tomb of Osiris (1997) beneath the Giza Plateau. They also worked within the pyramids of Mexico and Egypt doing acoustic testing where they showed extensive sound tones built into the architectural design of the various temples and tombs. They have also spoken at various universities throughout the world on the power of music showing how it is a transformational tool for health and increasing the cognitive powers of the mind.

GLOSSARY [In four sections]

# *INTRODUCTION*

*"Put off thy shoes from thy feet for the place whereon thou standest is holy ground" Exodus 3:5.*

While I was in the act of prayer calling upon the Name of the Father, asking to know the meaning of life and for what reason I was called into the world, my room suddenly became full of a different type of light. And in the presence of this "Light" a great being stood before me who announced that he was Master Ophanim Enoch. This being had so much

Love and Light, I felt as if I were a child in the presence of this divine Master Ophanim.

The being asked if I were ready to go with him into the Father's midst, and I said I was. And with that, a great field of Light was placed around my body and I sped upwards into the heavens; first into a region of stars called Merak and Muscida. And while I was in this region of the heavens, I was told about the earth and my temporal homeland upon the earth.

I was told how those who govern the power upon the earth are those who have fallen from the higher heavens and now indwell in the stars known by earthman as Ursa Major. From this threshold gate, they control one of the major entrance points into our local system from the higher heavens.

I saw how the Masters from previous cycles were cast down to these stars from which they now govern the lower planetary worlds and the karmic penalties that were assigned to each. I was shown how earth was part of a biochemical testing zone using both fallen and divine thought-forms in determining what type of intelligence could eventually free itself from the countless physical rounds of existence controlled by the fallen hierarchies inhabiting the regions of Ursa Major, Ursa Minor, Polaris, and Thuban. These realms contain beings in imperfect bodies of Light who use their power to establish themselves as gods in the lower realms.

And I was taken from this region of the stars into the Mid-Way station of Arcturus, the major programming center of the galactic Council serving the Father on this side of our galaxy, which is under the direction of the Council of Nine — the governing body of our local universe. There I was shown the network and the courts used by the spiritual Brotherhoods who adjudicate decisions pertaining to the planets involved in our region of space.

I was taken from Arcturus through a series of tessellations which seemed to be of a different "Light" density, where multiple saddle-shaped concen tric fields intersected so that a threshold was formed running through the star spaces connected with Orion. My physical body at the threshold gate, had to exchange its garment of flesh for a garment of Light as I passed through the star regions served by the Brotherhoods of Light.

From there I was cleared to go on into a greater paradise of Light called the seventh heaven. There the thresholds to this region of the sky were full of eyes and burning fires of the Elohim Masters who govern the higher dominions of power. From the burning fires, tongues of Light projected out to form Or (Light) stations. Amidst the Or stations, I saw wheels within wheels, the vehicles of the Ophanim messengers serving the lower heavens. These Ophanim messengers join other angelic orders of Light proclaiming "Kodoish, Kodoish, Kodoish, Adonai 'Tsebayoth (Holy, Holy, Holy, is the Lord God of Hosts)!"

I was then taken by Enoch to the region known as Saiph in the great star field of Orionis; from there I was taken into the presence of the field of Light known as Mintaka. And within this field of Light I was met by a being of great Light, a being of great majesty called Metatron, the Creator of Light in the outer universe. And my spirit was so overwhelmed with the presence of the higher Light, I would not have been able to maintain my body of Light were it not for the body of Metatron.

Metatron then took me into the presence of the Divine Father. And I went into His presence through the door of omega Orion which serves as a Grand Entrance to regions of pure energy emission. The presence of the Father was so rarefied that only Metatron could take me into the Pyramid of the Living Light, the Throne, where I saw the Ancient of Days face to face, with His flowing white hair and His face of overwhelming Love and Joy. No words can express the "Eternal" and the sanctification of knowing that the Father called me into His presence to tell me for which reason I had left behind my toga to take up this perishable body of time to serve this planet, this pearl within the rosary of stars that are set on this edge of our consciousness time zone to glorify "His Right Hand."

And in His presence of Light I proclaimed, "Thou art worthy, 0 Lord YHWH to receive glory and honor and power, for thou hast created all things and for thy pleasure the aeons were created." And in the presence of His Throne of Light, I bowed my head, as I saw the Twenty-Four Elders of Light who were around and about His Throne, singing praises of Kodoish, Kodoish, Kodoish, Adonai 'Tsebayoth!" I also saw on the Right Hand of the Father, Christ Jesus. And Metatron told me that these Lords of Light are worthy to sit in the presence of the Father, for they choose periodically to leave His presence and go out and create other worlds of Light, known as the worlds of the Elohim.

Before the Throne of the Father I was told of my work, as being part of Enoch, to serve the universes of the Paradise Sons, who in turn form the Councils of Light that receive commandments of Light and ordinances of fire projection from the Twenty-Four Elders of Light to create new universes.

And I was told by my guides, Enoch and Metatron, that I was not to eat food of the false powers of the earth, nor encourage my seed to marry with the fallen spiritual races of the earth, nor join in false worship of those who serve the fallen mind energies of the earth. But my reason for being was to exalt the Father so that all knees should bend and that all heads should acknowledge the "time is at hand" for the externalization of the Father's Hierarchy, so that His Kingdom will come

on earth as it is in heaven.

I was taken to many other regions and instructed in the revelation of how the many mansions of the Father were opening to the birth of a new heavens and a new earth.

While I was before the Throne, I saw a burning scroll rolled as a cylinder and out of this burning scroll a Light was projected into my third eye which imprinted the scenario abstracts that contained the Keys that are to be used for the marriage of the Bride and the Bridegroom. The Keys reveal the overlap between the higher evolution and the human evolution as man is taken through his Alpha and Omega. These scenario abstracts were projected in glowing geometries of Light which are part of the fire letters used to transcribe knowledge from Father universe to Son universe to Shekinah universe, in connecting one eternity of time with another eternity of time.

I was shown how the Mysteries of the Father's House of Many Mansions allowed for infinite myriads of creation to proceed out of the Father's inexpressible Love, linking all manner of specie creation with the Infinite Way. Thus, many Mysteries of the Father's Kingdom were revealed to me, including the nature of the Office of the Christ, the history of the Brotherhoods upon this planet, the reason why the true teachings of YHWH were encoded into a language of Light, the orders and dominions of the galactic Councils, the return of the Messiah, and the transplanting of the Christ seed beyond the threshold of Alpha and Omega.

I was told to compose a scroll on parchment from the divine scroll of Light that was coded into me. And this scroll is the 64 Keys of Enoch, explaining how the Seven Seals of the Book of Revelation will be broken as all measures of science from the biophysical to the astrophysical are attuned to a new spiritual revelation in the name of Ehyeh Asher Ehyeh, I AM that I AM. This scroll is to bring forth a new cosmology of consciousness in explaining how the Brotherhoods of Light will work with members of the human Race who can accept the promise of New Life in the myriad other universes. The Keys, thus, are to exemplify both the spiritual understanding and the scientific understanding that must converge if the right reality structure is to be shared by members of the human Race in taking a quantum leap forward into the New Age.

The purpose of this teaching is to open people's minds to new ideas, inviting you to share in the experience of the education of the soul. As your soul is advanced, you become a part of the joyous participation and share in the 'inner peace' of the great unification of the 'First Supper' now taking place between the Brotherhood of Man and the greater universal intelligence — the Brotherhoods of Light.

In the education of the soul, it is necessary to receive the Wisdom derived from the higher worlds which unites your bodies of Light and provides the foundation for your creative experience. This Wisdom reveals how we can share in both a higher world of Light and this physical world of 'reality'.

This teaching is to make you aware of the Divine Light worlds within and without, allowing you to co-participate with the many worlds of intelligence that are part of your collective birthright. You are to see how life's blueprint has already existed in worlds prior to material creation, and to understand how a timeless blueprint was coded into this body of temporal consciousness so that your body can put on other garments of God's creative work through multiple bodies of Divine Love.

These are the 64 Keys that were shown to me by Enoch and Metatron, to unite the nations for the coming of the Melchizedek Brotherhood and to make ready the final preparation for the descent of the 144,000 Ascended Masters who will redeem the meek and righteous of the earth for the new life stations of universal intelligence in the higher Kingdoms of the Father.

In the presence of Metatron, the Unity of Days, and YHWH, the Ancient of Days, I was told how the scroll of Enoch was to be divided into three portions which deal with the three major divisions of universes — Father universes, Son universes, and Shekinah universes.

The Keys to Father universes are to explain how the Mansion worlds of the Father are connected to the Divine Creators, creating new universes through cosmic pyramids of Light.

The Keys to Son universes explain how the biological codes of the Christ Race are to evolve into the image determined by the Father through the Paradise Sons and not through the lesser forces of Light.

The Keys to Shekinah universes explain how the spiritual gifts of the Holy Spirit will be given to the Christ Race so spiritual Man can work directly with "whole Light beings" — the angelic messengers who will prepare the righteous of the earth for the Council of Light which will be established upon the earth at the time of the new heavens and the new earth.

All three divisions are served by the Brotherhoods of Light under the direction of the Brotherhood of Michael, the Brotherhood of Enoch, and the Brotherhood of Melchizedek, which direct the seventy Brotherhoods of the Great White Brotherhood. The seventy Brotherhoods serve as a field of intelligence in the repairing of the universes so that they can evolve into the infinite wisdom and glory of the Eternal Mind of YHWH.

The Keys are encoded in fire letters having the sacred "Yod" over each letter so that a new spectrum of Light can biochemically respatialize

you by activating the chemistry in your mind to participate on the many planes of the Word of God. The spiritual child of God has a Christed Overself Body of Light. And when the spectrum of the Word of God activates your body to participate in many dimensions simultaneously, your Christed Overself fulfills the words of Revelation: "Happy are those who wash their robes, that the authority to go to the trees of life (plural) can be theirs and that they may gain entrance into the city by its gates."

These will be the righteous who will inherit the many galactic trees on the other side of our Alpha and Omega. And when this cycle is completed the righteous will participate in new worlds and recognize all the manifestations of the Father universe, the "Living Universe" behind all living universes, behind all the Ascended Masters of Light and all the Brotherhoods of Light.

And with that vision I was returned to this world to write the words of the 64 Keys of Light set forth in this book of knowledge, delivered unto me in this consciousness time zone by Ophanim Enoch and by Metatron to be vouchsafed unto the saints and delivered to the children of Light in the name of *Yod-He-Vod-He.* May the Kingdom of the Living Light come quickly.

*Why were the Keys given at this time?*

Enoch and Metatron have manifested this Revelation so as to prepare mankind for the quantum changes affecting every level of intelligence upon this planet. We now have the opportunity to collectively move into another system of creation. Therefore, this teaching has been given in the form of Keys to help coordinate sixty-four unique areas of scientific knowledge which are to be simultaneously advanced. The Keys have been given to assist all of the basic scientific disciplines to make a quantum leap forward into the new consciousness of Light.

Since these teachings are applicable to the various sciences, not everyone will comprehend all of the Keys equally, nor will the full complexity of each Key be fully meaningful at the present time of our participation within the Infinite Way. Therefore, not all the Keys will appeal to the same type of scientific and consciousness evolution because they work on various levels of understanding and are connected with the totality of knowing "the Light" — the primary frequency of the Infinite Mind.

Each of the sixty-four areas of science are to be given prophetic insight which will allow humanity to increase its understanding and raise its consciousness to participate with other worlds of Light. Thus, the Keys are to focus scientific research on the planet, with respect to the larger blueprint of life.

However, the Keys also demonstrate that science by itself does not possess all the answers; we now need to interrelate to the greater program of spiritual and scientific unity which involves the other planetary intelligences that share a common program of mutual scientific growth. In the final analysis, the Keys show that there is no end to science, but that we are going through a series of consciousness lives showing us how to evolve and share with each other forever in the unfoldment of the Infinite Mind into the Infinite Way.

There will be a tremendous acceleration of the physical sciences into the spiritual sciences in truly transmuting the world of material form into the Kingdom of Light. Therefore, the Keys are being given to the builders of the consciousness frontiers of both physical science and spiritual science who place the needs of mankind first, and their own needs second. Enoch said that the Keys cannot be applied on an individualistic level since they are involved with the collective advancement of the human race.

Enoch also told me that in order to work with the Keys, one must be able to go into the fourth dimension. The fourth dimension is "time" beyond conventional time. In going beyond conventional time you stand in awe of the larger universe. Here, the intellect must bow to the spiritual mind in the same way life must bow to the Infinite Way which continually repatterns and regenerates creation.

In connecting with the Wisdom of the Infinite Mind, the Keys demonstrate that scientific knowledge by itself does not contain all the answers to the basic questions of: Where do we come from? Why are we here? Where do we go from here? The words of the Coptic *Gospel of Thomas* affirm: "Jesus said: 'If they say to you: Where do you come from?, tell them: We have come from the Light, the place where the Light came into being through itself alone ... If they say to you: What are you?, say: We are His sons, and we are the elect of the living Father. If they say to you: What is the sign of your Father?, tell them: It is a movement and a rest."'

According to Enoch, the determinism of the earth sciences is to be subsumed into a primary plan of continual creation which is under the organization of the "Higher Evolution." Through this plan of organiza tion, Man will behold and share with 'Universal Man' — the *Adam Kadmon* — in the unfoldment and inter-rebirth of the Infinite Mind, the Infinite Wav, and the Infinite Species.

The teachings of Enoch explain how we will truly transmute this world of material form to be consistent with the structural pattern of the "Living Light" within the Kingdom of Light, where both Man and Higher Man can freely commingle as "Life" within the "Living Light." Although the entity forms of Light and the garments of biological form will change —

Love will continue to reign supreme as the underlying expression of the "Living Light" — the primary emanation of the Infinite Mind on every level of universal being. Here we are dealing not with existence and non-existence, life and death, but with a passing from one state to another, sometimes explained as a passing from one type of visibility to another; not only to the other side of the ultraviolet spectrum, but into the consciousness intelligence which has always existed and from which the derivative garments of Light have unfolded as "many embodiments of intelligence" into the many electromagnetic spectrums.

Enoch said that the Keys were not simply for this planet, but were given in preparation for our work upon other planets in keeping with the greater harmony of science and spiritual truths, within the manifes tation of the "Living Light." Thus, Enoch's teaching is to help the col lective body of intelligence use its ability to work on many levels of intelligence "within" and "outside" three-dimensional creation, so that the Divine Intelligence might be felt within all things. Therefore, the Keys are the interconnection for the great transformation.

Give ear to His voice calling loud over land and sea, from space, and space beyond space, announcing to all mankind the advent of quantum change and transition through His Spirit of Revelation — a Revelation through the agency of which the Tongue of Fire is now proclaiming: lo, the sacred pledge has been fulfilled, and the Promised Spirit — the Holy Spirit Shekinah, shaping the Sons and Daughters of God, has come!

And in working with the Light, use the gifts of the Holy Spirit Shekinah that can be directly manifested wherever you are, for the Holy Spirit is the key to the Book of Knowledge.

The Keys of Enoch and Metatron are also to form the focus for the unifi cation of the spiritual traditions throughout the world so that they will come together in the Father's Plan. The multitude of Offices of the Ancient of Days, the Recent of Days and the Future of Days have cooperated for the externalization of the Hierarchy which will manifest in multiple orders from the Hyos Ha Koidesh. This is the time to activate the "messiahship within." The outpouring of His Love will provide the Divine experience, wherein we can grasp the Light which overcomes all "illusion" of separation.

As spoken of in *The Kitab-i-iqan* from the teachings of Baha'u'llah: "All prophets of God, His well-favored, His holy and chosen messengers are, without exception, the bearers of His Names, and the embodiments of His at tributes." Let Jew understand the mystery of Jesus, and Gentile the mystery of Moses, and may the glory that you derive from Buddha, Krishna, Hari, Amen-Ptah, and the Paradise Trinity of Moses-Jesus-Elijah be dedicated to the Father from Whom all Glory manifests. For these are His Sons; they are the reflections of His Light. They are but manifestations of the One who is the Source of all Invisibles, and who will resolve the mystery of why a Jesus, why a Moses,

why the Merkabah of Elijah manifested for the benefit of Man.

The whole Light beings will mark the next stage of the quantum transition Man will go through, so that Man will not only be able to exchange "garments of consciousness" in the reality of this world, but also exchange garments of consciousness with other planetary worlds, so that the vehicles of spiritual mankind (the Overself, the Atman, the Buddha body, the Zohar body. . .) can ascend into the Office of the Christ.

Out of this transition, human society will experience those eternal truths that motivate life and impel it forward towards the next phase of the unfolding of the Eternal Mind of God, until it achieves its destined creation.

*How are we to use the Keys?*

The Keys themselves were given on January 2/3, 1973, to prepare mankind for the activation of events that are to come to pass in the next thirty years of "earth time." Enoch said this will be seen as the Brotherhood returning to earth to repair and resurrect humanity. Within this time frame, the preparing of the Office of the Christ and the Keys of Enoch are to precede Yahweh's Kingdom — giving sufficient knowledge for activity in the new worlds as we proceed on in His Name.

The Enoch Keys were given directly to me through the Revelation of the holy scroll of burning Light — seen in Merkabah — in the threshold space of the higher spiritual Light. They were given to me beyond the confinement of the earth and the air regions surrounding the earth, so that they would not be contaminated by the fallen thought-forms of higher intel ligence that influence the destructive pathways of humanity. As the Light geometries were pulsated out of the burning scroll, I was told by Enoch that the Keys were **directly given as a gift** of Revelation and were not to be confused with teachings transmitted through thinking computers, nor through the power of channeled information.

Furthermore, I was told that I was given Keys in sixty-four different areas of science which would be theoretically accepted by scientists in each the sixty-four areas of spiritual- scientific synthesis, before the coming of Brotherhood of Light.

I was also taken and shown things related to the Keys of Enoch and Metatron to help bring out the fuller meanings of the Keys. And this is the explanation of the Keys which I have written down (to the best of my abil which is to be used as a tool for the understanding of the Keys. And, after receiving these Keys, the Merkabah appeared to me regularly, so that ethers would see and bear testimony to the faithfulness of the Living Word.

Now as to the nature of the Keys, there is a special sequence in the ordering of the Keys which allows them to mathematically connect with one another so as to explain the interpenetration of

universes and how spiritual intelligence works directly through the interfacings and intercombinations of the Keys. I was told by Enoch to place the specific numerical codes on the ordering of the Keys which are presented as they were shown to me with the exact numerical sequences.

Enoch told me the first fifty-four Keys are to be the foundation for the Ten Commandments — the ten final Keys that will give the grid systems of life and the resurrection and respatialization of the collective humanity that will proceed into the universal I AM THAT I AM. This is the Divine Unfolding of the Kingdom of Light, connecting the human evolution and the Higher Evolution in its appointed time.

The final ten Keys, however, are to be given as a special scroll after the witnessing of the message of the *B'nai Or,* the Sons of Light, has been given to the special scientists and spiritual thinkers of this planet as a testimony of the Father's Plan being finalized by the Councils of Higher Intelligence. Enoch showed me how the last ten Keys — the Ten Commandments — were pyramidal grid structures of Light coordinating the dynamic vibrations, the gravitational vibrations, and the vital cycles according to the Divine Plan of YHWH.

The pictures that were commissioned for the Keys give the picture of the family of "Christ" and the work of the Masters who, with Enoch and Metatron, reflect the true Book of Knowledge.

Hence, this Book has been delivered to you in order that you may be prepared for the opening of the pyramidal grids within the foundations of change so that your own being will be prepared as the "Adam" upon the earth to move into the next unfolding of the Adam Kadmon, the primary Man of Light. In this transformation, the earth as part of a biochemical testing zone will allow the Love of the Father and the specie to be increased and multiplied, while some programs of consciousness will be brought to an end and decrease in the overall pattern of creation.

In the preparations for studying the Keys of Enoch, in order to trigger the gifts of the Holy Spirit Shekinah, one should strive to be centered, feeling completely that the Love of the Father within, avoiding the schools of

thought that would sacrifice the Wisdom of God for momentary enthusiasm and bow to a graven image, even the image of a Master. Our goal is to build the Kingdom of Light within the reality structure of this world, being ever mindful that this body of flesh will give way to a garment of Light.

In establishing peace and harmony with one another we are each contributing to the Kingdom of Light within a Father-Son-Shekinah unity of cosmoses, universes, and planetary worlds. The Light of

YHWH is so vast that there is no space that it cannot enter and begin to activate even the smallest cellular structure so that it can evolve into suns of infinite and unimaginable splendor.

*Why are the ancient terms included in the Keys?*

According to Enoch, the ancient expressions of the Egyptian-Hebrew-Tibetan-Sanskrit-Chinese tongues are to be used, because they faithfully connect with the Masters who are still administrating Wisdom to this program of intelligence. These 'sounds of Light,' used in laying the foundation of the present program, will figure predominantly in the recapitulation of this program now at its Omega point.

The Keys were composed of fire letter geometries because they are used by the Masters of Light to shape creation between the powers of Light and the octaves of sound. Hence, they constitute the regenerative power of biocoupling expressed through the vibration of the Word which produces the letters of color geometry.

The energy words are to be used to code your body directly into the Light. They also provide the sound vibrations of greeting and protection in working with the Brotherhoods of Light and the Hierarchy of YHWH. To place these ancient energy words into English, modern Indo-European languages, or some other language, would deprive consciousness of a **direct experience with the power of the sacred language.** Transposing these words would cause them to lose their energy pulse, which is similar to the symphonic song of a musical masterpiece transposed out of its original key into a strange cacophony. Therefore, the Keys work through the vibrations of Light and use these sacred expressions for the unfolding of the seals, and the direct experience of God's higher mysteries.

**Thus, in the preparation for the Keys, it may be necessary to study the vocabulary of "seed syllables" first, as given in the Glossary of this book, so that the thought-forms of the Language of Light used by the Masters and Brothers of Light may be fully realized.** In these seed-syllables, the testimony of the Masters and the emanations from YHWH's Mind can be felt as powerful emanations that surpass the linear and static speech forms that are not linked to the Living Word of God.

God's Living Word cannot be broken for it works through a vibration as effective on this end of time as in the beginning of time. Indeed, the seed-syllables of spiritual truth will truly cleanse and unite all the true scriptures of Light into the *Ain Soph,* the Limitless Light of YHWH. In using the sacred syllables, your "life vibration" will also be placed in sympathetic resonance with the Overself and Christ Body Overself in other worlds of creation.

Finally, beloved, understand that in the eternality of God's Living Word — the Language of the Living Light has proven to be the binding ingredient behind the seals and mysteries of creation. The Language of Light controls the formulations or "Gates" in the expressions of the Letters. And now the Language of Light is shaking the foundations of the earth so that the earth may dawn anew through the teachings of the Father.

*Why are we here?*

Indeed, the divine Mind can emanate into matter and take on material form. The material form is necessary to serve as the biological foundation for new worlds of experience. Blessed are we who are and have known our image — for your Adamic image existed before this creation with the Father in whose likeness we are, for we came into this world and put on this body of flesh.

Enoch said Adamic Man was created simultaneously in the heavens and transposed along energy grids into physical embodiment from a divine form which he is to return to after this exploration of consciousness. We are here as an experiment exploring opportunities to achieve yet greater things being tried and tested in the material worlds, so that the links between the upper and lower worlds that have been forged by the Office of the Christ may be expanded, and that no one who seeks the Spirit of God may find himself as a rebellious child. However, in coming to earth each *spiritual soul* leaves his particular treasure, or his share of the Treasury of the Living Light behind him in the higher worlds which will await his return.

In entering the physical dimension, the energy of high speed electrons is gradually absorbed by electromagnetic and electrostatic "brakes" so that the thought-form body carried through high frequency light slows down long enough to interact with the electrons in the outer orbits of atoms. The entrance of the greater Luminescence into the common luminescence opens "the Gates" in the realms of biological phenomena so that the darkness can behold "the Light." From this point on — with the teaching of Enoch and Metatron, it is no problem to trace the progressive stages of increasing order to larger and more complex entities, and the decreasing steps of energy change that may occur as thought-forms pass into the substratum of creation.

In the conversion of Light into material form, our world was originally commissioned in the Father's Name, but was intercepted by the fallen Masters who applied their law of vibration to this creation. The King of Kings and Lord of Lords who brought forth this creation out of His greater Love — allowed the Elohim Lords the prerogative of creating the thresholds of advanced intelligence for

the seed of the Elohim. However, some of the Lords of Light revolted and sought not only to condemn the Adamic creation to destruction, but to interfere with the next models of other Adamic humanity created for this planet. It is only through the Office of the Christ working through Metatron and Melchizedek that the incarnate "children of Light" have had an opportunity to form communities of the "Living Light." These communities are dedicated to the Father, and work directly with the heavenly hosts.

In reading the Keys, you must not confuse the word "evolution" with the Darwinistic-Lamarckian use of this term. The term "evolution" used by Enoch, means the advancement of consciousness power in overcoming physical limitation and all conscious states that would inhibit the full ex pression of the Love to God in all kingdoms of intelligence. True evolution is "spiritual evolution" whereby your spiritual vehicles evolve toward the divine self in concert with one another. Spiritual evolution coordinates the enlightenment of your consciousness vehicles, giving sustaining purpose to life through the fruits of Love and Wisdom.

With simply "material evolution," there would be no need for the Divine to intervene in the physical universes, and no need for the work of the B'nai Or. The biochemistry of the lower worlds would simply serve and attend to itself. However, there is a need because we are a living part of life, not "life itself" in the sense of structural autonomy, but as a collective being that is being continually manifested from the heavens to the planet ary worlds in order that the Trees of Life may bear different fruits within the Kingdom of Creation.

According to Enoch, our memories of the Higher Evolution or spiritual evolution are hidden from our knowledge by a veil of light, and when we remove this veil, the other worlds of existence will be simultaneously re vealed to us by our Oversell. However, the choice to serve the Light must be made in every embodiment, in every cycle, in every plan of creation.

In making the choice, beloved, understand that which you were prom ised in the Kingdom of God will be fulfilled. This is the witness which the Son revealed when he said to those around him that they would see the Kingdom being offered to YHWH — our Father! Truly, the spirit of truth is here; and Enoch and Metatron are here to guide you into this truth so that this world might be in synchrony with the thrones and dominions of YHWH when the veil of time is removed!

Let the Ancient of Days in unity with the Recent of Days, prepare a place where the Son of Man can lay his head in revelatory unity with the sons and daughters of the Bridegroom. Let the *Ain Soph* gather the lights of creation from all relativities and divine attributes. And let the cosmos of supernature be revealed within the cosmos of nature for the Shekinah's reign upon the Earth. May the radiations of Light pierce all veils and all

manner of limitation so that the brilliant energy within our mind awakens to the fulness of all mysteries.

Guide us in the breaking of the vessels of form, and help us in the execu tion of Divine Will and Wisdom in this world so that Thy servants can show all humankind its inseparable unity with the Divine Family.

May the blessed *Hayavah* (the Tetragrammaton) be inscribed upon our inner minds so that The One who reveals Himself through The Holy Names may activate our lives of imperishability and we may be granted the privilege of witnessing the coming of The Host who will walk with us in the flesh. Let us walk in the Light, You and I, for in the end there will be many beginnings — as this garment of life is offered up and the Adam Kadmon puts on another garment of Light. The word has become flesh so that every Living Letter of Light that passes through this body can create myriad bodies of Light. The opportunity to walk like Enoch with The Most High is now extended to all Peoples!

Hosannah!
